Dear Bro. Whiting,

I have received
an acct. from you since
March and consequently I
have an acct. to make up
this quarter except to add
to the balance in my favor
last quarter \$2711.96 the same
amount for salaries and rent
of rooms in Kingston as for last
quarter \$960. making the balance
now in my favor \$3671.96.

But the acct. you have paid
since March this I have not
yet heard from if entered to
your credit would make
the acct. about even.

The hat sent by Henry Breake-
is received and the two copies
of Gates Ajar were recd. by

[Faint, illegible handwriting throughout the page, likely bleed-through from the reverse side.]

Mr. McCarty and also a
letter but no accounts.

I am afraid that Helmholtz
is Humboldt but I thought when
I ordered it it was a simple
extract and not a camouflaged
patent medicine. The next time
I will send to Dr. Ritter

Please send me all of the
fallowing of Dr. Lange's Commentaries
that are published

X - 2 Volumes on John

Wm Davis at Prudence Louis Kelly at Manning's Hill and
John Phillips at Camberwell

Blot, Jamaica, Jan. 5. 1871

Rev. Geo. Whipple

My Dear Brother,

I wish, and so do we all, that instead of telling Henry Wolcott that if he had waited a little longer you would have come with him, you had told him that you were coming. We don't wish you had come with him, for such weather as we have been having these months back, transcends all my experience of Jamaica. But now we are getting bright skies once more, and if you start as soon as this, comes to land you will get here when the roads have been well dried and our upland climate is in its perfection. Spend three months here, and then we might go home together.

Your coming here would give us quite a new start, and I am sure we need one badly enough. And it would also give you quite a new start of interest in Jamaica, and we think we shouldn't be the worse off for that.

If you just make a push, and get started, you'll never be sorry for it. San Domingo, I see, is on the boards again, so you see the West Indian question is becoming practical.

The people of St. Domingo have decided to pull down their chapel (leaving the dwelling-part) and build a smaller one. It is too rotten to stand longer. The prospect of having this lumbering old thing off their minds, and of having things in a trimmer compass, seemed to have roused their spirits. I have never seen them apparently so ready to welcome the acceptable year of the Lord. There is no telling what great things the impulse of a visit from home might develop in this receptive attitude of their souls.

For my part, I expect still to work for St. Domingo under whatever formal relations to the Society. I hope you will be liberal to them in their attempts to put up their new erection, for they need it, and deserve it.

Truly Yours

Jan'y 25th 1871

Rev George Whipple Sec. A. M. A.

My Dear Brother

Your ~~note~~ of the
24th of Sep reached me in due
time for which I thank you.

Herewith I send you a
Circular, by which you will see
that our Government is anxious
to promote education in this Island.

I applied for and obtained
an opening grant for "Manning
Hill" last year, where we opened
school, and passed Government
inspection at the end of seven
months teaching. That school
is now on the list of schools
claiming annual Government
aid. A church has been
formed

Formed there and a new
and substantial chapel ^{built} Mainly
by the people themselves. It is
probable that this little church
will join our association at
our next meeting to be held
at Brainerd in April next.

One of the best things we
can wish for is your presence
with ^{us} during that month. We
really need it. The churches
lack spiritual life, said to say
it, but it is so.

I believe Bro Warming
reported Manning's Hill school
to you last year, at least I
asked him to do so, as his
teacher, Mr Kelley, had charge
of it. Manning's Hill is a
thickly populated district about
twelve miles distant from Brainerd
and ten miles from Kingston.

I am now about to apply
for an opening grant for
August

"August Town" another important district, distant from Brainerd about four miles, and where several families in connection with the church at Brainerd have bought land and settled as small farmers, or planters, as they are called here,

The cause at Brainerd I think, is looking up, our schools are well attended, the congregation always good, and we are now about to receive several young persons into our communion of whom we hope well, some of them are really anxious to declare themselves on the Lord's side. This is as it should be, I am sure The Lord will remember Zion when her people are faithful, and active, having a single eye to his glory.

I believe Bro Starbuck

is

1/25/71 John Thompson.

Bramford, Jamaica

Is about where the Lancers, as
he has doubtless told you, has
requested me, and I believe it
is the wish of the people, ^{at least} that
I should take the oversight
of the little church there, I am
willing to do all I can in any
part of the great harvest field.
but my hands are full, and
altho I am blessed with an un-
usual strong constitution
well adapted to this estimate, yet
of course it must give way
some day. But I have no choice
at all in the matter, whatever the
Lord wish I will do, and wherever
he please I will go.

If you conclude not to
visit this mission, then I will
submit to you some plans
which I have thought out
for the future working of
our Jamaica mission.

I am My Dear Brother
Truly Yours
John Thompson

P.S. I also send a map of Jamaica with notes
reference

Jamaica.
School Circular

(CIRCULAR.)

School Inspector's Office,
Kingston, Jan² 1871

SIR,

I am directed to inform you that all applications to Government for the "ANNUAL GRANTS" in aid of Elementary Schools for 1871, must be sent in to my address, Kingston P.O., as soon as possible, and not later, if practicable, than the 15th of February. The necessary blank forms, to be filled up for this purpose are sent herewith.

Each Return is to be filled up with the required particulars for the twelve months, ending 31st December, 1870. The "Return" for any School that has not been in operation for the whole twelve months, should be filled up *for as many months* as the School shall have been in operation, up to the 31st December 1870.

As the work of Inspection is to be commenced earlier this year than heretofore, School Managers are respectfully reminded that it is of the utmost importance that the Returns should be sent in with as little delay as possible, and within the time above specified.

Extracts from the "Gazette by Authority," relative to the regulations on "Opening Grants," increase of Grants to "Industrial Schools," and the additional allowance for Needlework, are hereunto annexed for your information.

I am, Sir,

Your Obedient Servant,

JOHN SAVAGE,

Inspector of Schools.

To

Manager.

1877

Extracts from "The Jamaica Gazette."

January 12th, 1871.

"OPENING GRANTS FOR SCHOOLS."

"As there are many populous places in the Island where no Schools as yet exist; and where it is desirable that Elementary Schools should be established as soon as practicable, the Government is again prepared to advance, in the course of the current year, Grants of money, to a limited amount, to respectable and trustworthy Managers or Teachers, who will undertake to establish and maintain Elementary Schools in such places.

The general conditions upon which these Grants will be issued are as follows.—

I.—The Districts in which it may be proposed to establish these Elementary Schools must be populous centres, where there are now no Schools sufficiently near for the children of the neighborhood to attend conveniently.

II.—There must be a fair prospect of collecting a school of forty pupils, at least.

III.—The usual School Fees must be demanded; or some industrial pursuit must be connected with the usual School operations.

IV.—The Teachers employed to conduct these Schools must be qualified, at the least, to teach a "Third Class School," according to the Government Regulations.

V.—The Grantees must engage to furnish Statements, shewing the manner in which the opening Grants have been expended under the several items of Buildings, Appliances, and Teachers' Allowances; which Statements shall be submitted to the Government, through the Inspector of Schools; and they must engage that the Schools thus aided shall be subject to Government Inspection.

The Grants advanced will not exceed £40 to any one School, and will vary according to—

- (a) The necessities of the District, where the new School is to be opened.
- (b) The size of the School to be established.
- (c) The Buildings and Appliances required.
- (d) The length of time the School shall be in operation before it can come under inspection and obtain, if successful, its first Annual Grant in aid.

The Form of Application for Opening Grants, including the special points upon which information is required, may be obtained on application at the School Inspector's Office, Kingston.

These Forms are to be carefully filled up, and returned to the said Office, on or before the 28TH OF FEBRUARY.

Teachers applying on their own behalf, or independently of any Managers, are required to procure the Certificate and Recommendation of either the Custos of the Parish, or of a Member of the Municipal Board, or of a well-known Minister of Religion, as a guarantee of respectability and trustworthiness.

Schools receiving opening Grants shall be eligible to receive the usual Annual Grants, according to the Government Regulations of 1867, when they shall have been in operation *three months*, and shall, on examination by the Inspector of Schools, have given satisfactory evidence of a fair degree of progress and efficiency commensurate with the time they shall have been in operation, when examined."

February 5th, 1870.

INCREASE OF GRANTS TO INDUSTRIAL SCHOOLS.

The Government Regulations of 1867, with regard to Grants in aid of Elementary Schools, have been amended in Article Fourteen, relating to Industrial Schools.

The second Clause of Article Fourteen now stands as follows:—

"In the case of such Schools, the Allowances both of the First and of the Second sort, under Regulation Nine, may be respectively increased to half as much again as the Amounts therein specified, upon the special recommendation of the Inspector of Schools."

NOTE.—Article xiv. of the Government Regulations of 1867, defines Industrial Schools as follows:—
"Schools in which the Pupils devote not less than *three hours* of every School Day to manual labour, upon a regular system, shall be considered Industrial Schools, under this Regulation."

In the above Rule, *manual labour* signifies any kind of Handicraft, Manufacturing process, or Agricultural labour.

The amended portion of the Rule, now provides that half, both of the Class and Capitation Grants, —i.e. half of all that is otherwise earned—may be added as an Industrial Grant.

January 12th, 1871.

NEEDLEWORK.

With the view of encouraging the teaching of Needlework to Girls in the Elementary Schools, the Government is prepared to allow an extra capitation Grant of *two shillings*, for each girl that may be regularly taught sewing for a portion of every school day, in addition to the other grants in aid that may be awarded according to the Regulations of 1867; provided, that specimens of the needlework so executed by the girls, be submitted to the Inspectors of Schools, during their annual visits, with such statements relating thereto as may be required by them.

But this Regulation only applies to Schools that are *not* termed Industrial, within the meaning of Article xiv. of the Government Regulations of 1867; as all such Industrial Schools will still continue to receive their extra or additional Grants for Manual labour including Needlework (in Schools composed entirely of Girls), in accordance with the amended article published in the Gazette of February 5th, 1870.

March 20th / 87

Dear Bro. Whipple

Although we have sometimes
to labor a great while before we see
the fruits of our labors and although
we sometimes feel that we have but
very little to encourage us yet by
laboring on and patiently waiting
we are now and then rewarded
and cheered by seeing that we have
not wasted God in vain as labored in
vain. It has sometimes seemed to me
that in spite of all we were trying
to do for the people about us
were gaining less and even
and that it was almost impossible
to do them any good but after
months of discouragement we have
something to cheer us again. We
have just received into the church
eight new members and restored
two. There are indications also

that the people both in the church and out of it are more than usually interested in religion. A young woman who has the name of being a very bad young woman and whom I have not seen to chapel for many years has been attending quite regularly lately and she told me the other day that now she had made up her mind to seek the Saviour. She said she now saw how vain her life had been and in what great ~~danger~~ she was and that although all her friends would be against her yet she was quite determined to be a Christian.

One young man we just received into the church who was more than usually intelligent having been sometimes in the Sabbath School here went away and lived several years in a very wicked community which he seemed to like when he first went there and he led a very

wisest life than himself, thinking no
more that all his good instruction had
been lost upon him. But he returned
about a year ago and served
thousands of the life he had
been living and said he should
never go back. He sent for the
young woman he had been living
with and married her and both
of them commenced attending the
singing meetings the Sabbath school
and all the meetings of the church
very regularly and have shown
the greatest interest in them.
He told the people here that they
did not know how to prize their
Christian privileges as they ought.
They have both now joined the
church and the church are quite
well pleased with them.

Another man who was the
cause of our running to ex-
communicate one of our church
members and who was quite a
godless young man with a

S. B. Wilson 3/20/71.

Draydon Hill
very decided ^{pa-} up about a year
ago and has been most faithful
in attendance upon all the
meetings of the church and has
also given good evidence in other
things that he intends to live a Christian
life. He has not only been received
into the church himself but has
been instrumental in bringing
the one he led astray.

The home on the whole has been quite
well pleased with all we have secured.
It is certainly very gratifying to us
~~and~~ to see even a few become Christ-
ians when there are so many around us
who seem to have no interest in their souls
at all. We think too that those who
become Christians now are better
Christians and give us a great
deal more confidence and
satisfaction in their Christianity.

Believing me have your an-
nual prayers

I remain Yours faithfully
S. B. Wilson

To the Secretaries of the Archives No. 1

Dear Brethren

We feel assured that we are still very dear to you. We can not think otherwise. We cherish towards you feelings of gratitude for all that you have done for the good of Eliot. Knowing, as we do, that your hands are fully employed, that your fields of usefulness are ever widening, that your benevolent operations are on a gigantic scale, still, nevertheless, we have not for a moment entertained ^{the} thought that your love and sympathy and care are not as deep and heartfelt as ever towards the churches which have been planted and nurtured by your care, grown beneath the manifold favors of our Heavenly Father, guided by the wisdom the untiring zeal of those self-denying and faithful men, whom God in his gracious providence has raised up, and you have sent over to us from time to time to teach the way of salvation. We are struggling on. To live is indeed to

though every day the scene is renewed, but
we mean to press on to the realization of
those bright hopes which daily sustain
us in our arduous conflict.

We have nothing wonderful to tell
you of, but we feel confident that ~~it~~
it will refresh your hearts to be acquainted
with the fact that at this present moment
our Church begins to exhibit signs of vigorous
agreement to us and to all who love the
Lord Jesus Christ. Six of our young people
are making public confession of their love
to the Saviour and seeking for admission
into the bosom of his household. Our
present pastor, who, we regret to say is
soon to leave us, has been very kind to
us. He knows how to help us in our
struggle. You could not have sent us
a more better qualified to explain
to us the words of the New Testament.
Under his ministrations, there has
been a decided advancement of the
young people, both in the Church and
in the Sabbath School, in intelligence

and a knowledge of the scriptures.

We have to lay before you, Brethren
the fact, that we are in trying circumstances
just now. Our Chapel, is sadly in need
of repairs. We have tried to patch
here and there in the building, but
the whole house is now very bad.
The continuous heavy rain during
the past year has weakened the
building considerably. It is now
hardly safe to conduct worship in
it, and should another rainy
season meet it before it becomes
really stronger, we fear it would
not be able to stand it. We are
anxiously seeking ourselves in
raising a special subscription
to meet with the need, but we are
obliged to say this is slow work.
Our number is small and our
resources limited. We need some
assistance for our responsibilities.

are urgently pressing. In this
emergency we turn our eyes
imploringly to you, fully assured
that our representations will not
be in vain. We are still weak, and
there is yet much to be done among
us, and we must truly confess
for its sake suppressing the
fact, that there is but little hope
looking at things as they are, of our
shortly becoming independent and
self-sustaining.

But we really hope, rather
you will not be discouraged in
view of the facts we have placed
before you. Our pastor who will
shortly be among you will give
a fuller detail of our state to you.
The time will come, though there
will be much the exercise of faith,
and patient waiting, when you shall
have the joyful assurance, that your
labor of love has not been in vain.

Your prayer for ~~us~~ me has a blessed
benefit. It will be that the Great
Head of the Church will establish
and perfect us in every good work.
The Lord has not set bounds to his
grace, nor have you limited his
power. He will, in due time,
send an answer graciously to your
prayerful desires in behalf of your
struggling Churches here.

There are many and great difficulties
in the way which render our attaining
to Christian strength and manhood
no easy task. But difficulties
are not impossibilities. One
thing, however, we must ^{not} forget to
mention. There is evidently among
us a growing appreciation for
the Congregational ~~System~~ ^{System} of Church
Government. Increased intelligence
will but increase its value. We are
a "little flock", but ^{we} without some

Seasons of Unity Ch.

4/8/74. ~~to the~~ ~~of the~~ ~~shepherds~~ ~~pastors~~ ~~in~~
Midnight. We are planning, laboring
and looking for better days.

In conclusion, we beg to be
permitted to hope that our humble
epistle will not be unwelcome
and we anxiously wait to be
apprised of the fact that the
and worthiness of your
Church has not been overlooked.

By order of the Church at Elletts

April 8th 1874

} Brundage Hill
Apr. 15th 1871

Rev. George, Whipple,

My dear brother

I forward to
you the following resolutions passed
at a session meeting held here
at Brumant Apr. 11th and also a letter
written by the church at Elint to the
Association

Resolved that we request the
Association to give the churches at
Elint and Brundage Hill one hundred
and twenty five dollars each to
assist in rebuilding the chapels
in those places

Resolved that we request the
Association to give one hundred

dollars a year for the support of a
teacher at August Town promising the
government here. will give as
an opening grant and yearly
grants in aid of a school opened
there,

S. B. Wilson. Sec.,

The ~~chapels~~ at Chist and Bonadum Hill
have been in bad condition for a
long time, and all the money the
churches could raise has been ex-
pended hitherto in repairing them.
They are now in a really unsafe
condition and nothing can be
done for them except to rebuild
them. The churches are not able
to do this alone, but if the
above assistance could be.

given them we trust with the
willingness the people seem to
manifest to help themselves they
would get through it. Fifty dollars
has been asked for Eliot already but
as that is insufficient we ask
for one hundred and twenty five
instead of the fifty.

The letter I sent you from
the Church at Eliot will show
you something of the feelings of
the Church there towards the A. M. A.
and I would say that at a
meeting held with the Church here
(Brandon Hill) on the 11th the other
day they said they felt reluctant to
ask assistance of you as they
were already so much indebted
to you for providing them with

S. B. Wilson 4/18/71

Brandon will
same one to preach the gospel
to them for so many years
in the past and that if they
were able to get through it
alone, they would not ask

Angus-Town is a prosperous
place without a school about
four or five miles from Baines
and as the people there seem
quite anxious to have one,
we feel that we must do our
best to give them one,
We have no doubt we shall
get government aid on it if
we apply but it will not
be sufficient alone to support
a teacher and hence our request
for assistance from the Association
Yours in aff.

Ocean Queen

Recd. by Statute, 1871
5/13/71
Chas. Jamaica, May 15/71

Rev. Dr. Whipple

Dear Brother

Yesterday being
my last Sunday at Chas, the
chapel was crowded, nay, jammed,
as I have never seen it before.
Knowing its insecure condition, I
was under some little apprehension
but it happily held.

The day was a very profitable
one to me, and I trust not un-
profitable to my people.

All the Commission seven
candidates were admitted on pro-
fession of faith.

The people here have a heavy
burden upon them, now that their
house of worship almost threatens to
crumble down over their heads. We
have promised to assist them in the

ent of my ability, and I hope the
Lord will do the same.

I have found this little
church exceedingly receptive of
god, especially in such forms as
I was able to communicate it to
them, and I do not admit my
pastoral connection with themselves
in absence. They are in that stage
of advancement in which a strong
personal attachment to particular
men is an almost indispensable
means of their best good, and I should
sin if I were inconsiderately to leave
this bond.

There seems to be something like
a new spring of prosperity in Jamaica.
The misfortunes of our sister islands
of Cuba and Hayti have at least
done us some good, and if they miss

occur, it is well they should do
good somewhere, as it seems they
do very little good at home. King-
ton is so full of butchers and bayonets
that it is almost impossible to get
a house to rent, and the ship-owners
fill their accounts in it.

While the rest of the planet has
been undergoing convulsions by storm,
earthquake, plague, famine and war,
such as appear to be the ^{beginning} ^{of a new} ^{era} ^{of the} ^{kingdom}
of God, our little island, of old so
much agitated, both physically and so-
cially, has been held in perfect quiet
and peace, held as it were, in the
very hollow of God's hand. I tell my
people that this surely indicates some
gracious purpose of the Redeemer
concerning us, and they receive the
intimation with willing and waiting
faith. "The people that sat in
darkness have seen great light." The
West Indians have waited till the
course of history seems sweeping
down towards us. I for one do not

dear to me. my connections
with Jamaica, but I should lose
much, nay perhaps the most of
my reward from the estate.

I had the pleasure of welcoming
my countrymen of the Denison, Dr
Kington President White and Mrs
Barton and Frederic Douglass and de
lighted with Jamaica in company
with Miss Denison, leaving almost
exhausted, in which respect President
White declares that Kington is worse
than Douglas. I am surprised not to have re
ceived an application to the Committee
made so many months. However, let
it be now all I come home in
June.

Truly yours

G. B. Hastings

S. B. Wilson

} Kingston Jamaica
June 16th 1871

Tr. E. Whiting Esq
Sir

I have this
day drawn on you as
Treasurer of the American
Missionary Association to
the order of Messrs McCortney
and Wood to the amount
of Fifty-Dollars Gold fifteen
days after sight.

Please honor the
above with your accustomed
favor and oblige
Yours truly
S. B. Wilson

S. B. Munn

W. G. Whiting Esq.

Dear Bro.

Enclosed with
this you will see acct. covering the
two quarters ending June 1st 1871. I
have not yet heard whether you
have received the acct. for the yr.
ending March 1st and so I have inclosed
that with the yr. just ended.

There is a balance in my favor
of \$1637.34. but as I have drawn \$900.
in March which is not yet entered
in this acct. and as I expect to draw
\$750. more the acct. will be nearly even.

There are one or two items in
your acct. that I must ask you
to explain before I can enter them.

12 Aug 1878 14.40
Oct 70 invoice then for 18-

2 hr Lamp Com.	8.-
1 hr Life Ins.	1.-
48 hr Lamp Com.	12.96
	21.96

Made from 16/7

in my acct. with the brethren here
"Your invoices do not sufficiently
explain them. For instance in your
ac. for Dec. 1870. you have, Banks
Baughton & W. \$18-. The only thing
in your invoice I can refer it
to is 12 Cans Hyman & Anne Banks \$14.40
The difference between the two sums I can-
not make out—

The two items I should like
explained are—

Dec. 1870 Banks Baughton & W.	\$18—
Jan. 1871 Lange & Popper	\$22.68
	22.68

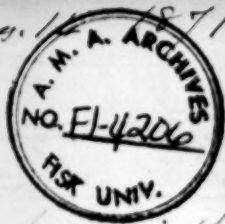

With kind regards

Yours very truly

S. B. Wilson

Kingston Jamaica }
June 4th 1871 }

Chesterfield. Aug. 14th 1871

Dear Bro. Whipple

Enclosed herewith
you will receive the annual
Report of this Church & Station.
We will be glad I know
to learn that I have been
able to attend pretty regularly
to most of my duties since
last August in much weakness
I'm not very efficiently it is true,
but I am thankful to my Heav-
enly Father for what He has
permitted me & enabled me to
do & bear. I say to bear for it
has not been altogether an easy
& pleasant year to me. Evils have
now & again cropped up a-
mong the people which have
required all the diligence, faith-
fulness & prudence which I

was capable of to meet them
& deal with them. It seemed as
though Satan had set himself
to divide & if possible to destroy
the Church of Christ here by stirring
^{up} animosities among the members
& setting them at variance with
one another. But God has been
on our side & instead of confusion
& every evil work which more
than once threatened to gain
ascendancy among us, He has
made peace & good will to
prevail again. And if it
prove in the future that in & by
all these things God's children
have learned better how to resist
the wicked one & better how to
live in love & peace with one an-
-other, we shall have fresh oc-
-casion to give thanks to the great
Head of the Church who can cause

even His people's faults & follies
to work together for their good.

Among the pleasing & encour-
aging things of the past year is
the increased interest manifested
by old & young in Education. In-
deed there has been quite a revival
on this subject for the last three
or four months. The school here
you may remember was reported
last August (1870) as closed. Last
year March the brethren & myself
came to this conclusion - to shut
up the school & send the Teacher
to another field. This we did, part-
ly as an act of discipline to affect
the people of this District, who for the
year or two previous had shown
great indifference about the matter
scarcely sending out their children
so that the attendance had dwindled
down to far below what it used to

be & what we knew it should
be. And we did it partly to give
the Teacher a more promising
sphere of usefulness at Hallowing's
Hill & the people there the benefit
of his labors. Our action it seems
has had a good effect. One
& another of the Parents soon
began to complain, wishing the
school to be opened again & young
people came to me from time to
time begging me to help them
on in the improvement of their
minds. Seeing this & having rea-
son to believe especially from the
commencement of this year that
this good feeling was ~~extending~~
~~both~~ among our own people &
others I determined to make the
venture & reopen the school. Ac-
cordingly I took one or two
of the most intelligent of our
Ang men as my assistants & com-
menced the first week in May.
I three months experiment has
fully satisfied me that I did
just what the people were ready
to appreciate.

Rev. D. A. Bradley,
~~Amherst Mass~~

8/1/71 Rev. G. B. Whiting
Chesterfield

2

The very first week of school they began to send in their children with a heart. scarcely a child has been kept away but for unavoidable reasons. The children themselves came with all appearance of heartiness. I myself & assistants & scholars have all had a good happy three months of it. The strain upon my nerves & upon weak bodies was almost more than I could endure. especially during the first two or three weeks of organizing & I felt sometimes that I would be compelled to give up. but God helped me by giving me good faithful assistants so that although the attendance gradually increased I was sustained till the last week in July when we broke up for our August vacation.

Our Lab. School too has been increasing for the last two or three months till now it has nearly doubled the attendance at the beginning of the year.

~~On the whole~~

The contributions to the support of the ~~our~~ ministry are about as usual while those for Station repairs ~~we~~ have more than doubled ^{any unusual amount of labor given provides} the amount reported last year, which is owing to increased exertions of the people to purchase & put up a bell for the Station.

On the whole then I am able as you see to report appearances of prosperity. I saw appearances for I cannot class these external things among the highest kind of blessings. as indubitable signs of the work of the Holy Spirit.

May the good Lord soon
give us to see His gracious work-
ings in the hearts & minds of
our Eng people & children & all
that our hearts may rejoice in
the unmistakable evidences of
His presence & power among us
to save souls & establish His
Kingdom in the hearts of His peo-
ple.

Knowing how very busily
you must be engaged with the
great work on your hands, I
can scarcely ask you to write
me. If however you can do it
some time soon without tiring you
too much I need not assure you
that it will be a great pleasure
to me to get a few lines from
you.

Affectionately Yours, Brother
B. J. Penning

Report of Cambridge School

Geo. Phillips. Teacher

1
Brandon Hill Jam.

Aug 5th 1871

Dear Bro. Whipple

Enclosed with this
you will find the reports of the
church at Brandon Hill and at
Providence for the year ending
Aug 1st 1871.

The past year has seemed a
very quiet one and as far as
any apparent religious excitement
was concerned a very tranquil
one with us here at Brandon Hill
and yet a larger number have
been added to the church than
in any year for two or three years
past. It is gratifying to see a

good work here without any
unusual excitement. We feel that
the people are acting more intelli-
gently and that the work will
be a more permanent and
genuine one. Some of those
who have been added to the
church have been reclaimed
from very bad lives and now
are walking so orderly that
we cannot doubt but that they
have experienced a change of
heart. I have often felt dis-
appointed that our labors among
the people here have not had
more apparent effect upon them
and have sometimes ^{too much} doubted its
having any effect but I am
quite convinced that faithful

Christian labor, will not be
lost here any more than it
will be lost anywhere, and
that the future will show
that the labors of God's servants
some, of whom have sacrificed
their lives here, have not been
in vain. It is true that it is a
hard field and that we have
frequent trials and discouragements,
and so have our people - and so
much the more they need any
assistance. I am sure also
that God in his own way, is
doing his work. It may be
that it is being slowly done
and perhaps not in the way
~~we could wish~~ but it is being
done and in the ~~better~~ way.

What God wishes.

I am sure that not only your missionaries but also our people are very thankful for the interest the Association still manifests in them and for the encouragement and aid they still give us notwithstanding seemingly more important and more encouraging fields have been entered. We labor under peculiar difficulties now. Our laborers are fewer than when our field was smaller and the work less pressing. We have just lost another missionary by the return of Mr. Startuck to the States and we have just received under our charge

another important and thriving
little church at Manning's Hill
which adds to our labors and
responsibilities

Some of our chapels too are
in such bad condition that it is
a heavy tax upon us to keep
them in order, we cannot use
our chapel here at Brandon Hill
at all and we are compelled
to take it down and rebuild
and it will be a heavy burden
upon us for sometime to come
I am glad to say however
that while some of the people
are quite backward in giving
assistance to rebuild it, others
are doing exceedingly well
quite as well as they could be

expected to do. We have raised
this year \$76; towards it and
considerably more, has been
promised. Some of the boys
have given \$5. and some of the
girls \$3. to \$4. I am gratified to
see the young people take
so much interest in it. They
are now getting out the
material for a new chapel,
and we have before us long
to get it so that we can
use it especially if we
get the assistance as it
we have asked from the
Association.

Our Congregation and
Sabbath School are good
and I have no doubt

but - that we shall have
a good day school as
soon as we have a place
to keep it in. The people
seem very desirous of
having it reopened. A good
deal of interest has been
shown in the adult school
. The congregation at Pro-
vidence has been somewhat
larger the past year and
I have been glad to note
a larger number of young
people attending the Sabbath
Services. The school there was
somewhat broken up by
the sickness of the teacher
at the season of the year
when the children attend best

Rev. S. B. Wilson
8/8/78 Brandon Hill

I think the people are improving at both places in intelligence and in showing a higher tone of Christian morality. One thing is certain we are having fewer cases of discipline. I can see too that our churches are ^{having} a good effect upon the people around us even upon those who do not join us. in very many respects. I believe they are having a greater effect than we imagine. Eternity alone will reveal what the prayers and labors of Christian people have wrought here.

Yours very sincerely

S. B. Wilson

Brainerd Richmond Post Office
Jamaica Aug 16. 1871

Rev George Whipple Sec A. M. S.

My Dear Brother

Herewith I enclose
to you the report of the Church
here to the 31st Sep.

You will observe
that a few have been added
to our number some of these
were gathered from the Sab
school and others from the
world; and I am glad too to be
able to report that others are
coming forward asking fellowship
with ^{us} some, of whom we hope
well, and ~~who~~ will; I doubt not
be in communion with us
before these lines reach your
hand. It is evident that the
cause

cause of God is prospering with
us, our congregations are good,
and good and regular attention
is paid to the word of God.

(Mr. Trunk) The question of "full sur-
render to God" is much talked
of in the congregation, it looks
like an awakening, and we ought
to expect no less, but rather
more, that God would bring
poor sinners to himself and
make them new creatures
in Christ Jesus.

There is cause for
great joy when we see children
standing side by side with
persons in advanced life, all
babes in Christ however, and
together asking the way to
Heaven with their faces thitherward.
~~such has been the case here~~
no doubt.

~~of late, and~~ such is the case
~~again~~ now, we cannot help
being joyful. Therefore, that our
dear Lord is pleased to man-
bles our humble efforts to do
good in his name.

Of course we have
our disappointments and our
sorrows too; it cannot be other-
wise in this wicked world,
and we must and ^{do} effort to
meet them, but we expect
also to overcome them, the
cause is The Lord, we re-
ly upon the sure word of
promise, "for he hath said,
I will never leave thee, nor
forsake thee." duty is ours
results are with God.

The Sab school is well
attended the average being upward
of

of a hundred, and as the children are brought under religious training at an early age we hope for good results, indeed we do now enjoy the fruits of our labors.

The day school is well attended, which passed government inspection with satisfaction. The average attendance of pupils is just above sixty. Our teacher, Martin Haires, ~~works on~~ with ~~pleasure~~, having a desire to do good both in the schools and as an assistant Missionary. I thank God for such a man at my side.

The income of the ch is not what I could wish it to be, not what it ought to be, it is painful to me to have to report this; the people are poor I know but not so poor as to be unable

2

Unable to contribute ^{regularly} to the cause of God.

The actual income was something less than the sum named in the report, but I myself, just brought it up a little only a little, had I not a large family I would do more.

I take it for granted that Mr Starbuck now at home, will give you his own report of Eliot. but I will just say that I have again taken temporary charge of the Church there and I have promised the friends there that I will stand by them in their time of need, and it is indeed a time of need with them now. I fixed the membership to be just

just a little over sixty, the
congregation appears to be
not less than 150 many of
whom are young persons
growing up into life, altogether
forming a charge for too im-
portant to be neglected. but
I am sorry to say that the
Entire building is untenable
you may not be aware that
the Ministers residence, Chapel,
School room, & teachers apartments
are all under one roof. The
building is all of wood, the
main timbers have long since
given way, and the roof be-
gins to fall in, I have therefore
advised Miss Woodcock to
remove her school to Rich-
mond, for a time at least.
We shall need soon not less
than

Then £60 to repair the building,
which ought to be done at once
and which I am anxious to do.

The people themselves are
collecting and have now in hand
the sum of £11-- which together
with the sum of £10- allowed
by the A. M. A. leaves about
two thirds of the sum needed
to be collected for this object.
I most willingly would under-
take to have the work done
without asking further aid
of the A. M. A. but I am in
doubt as to the possibility,
and as my time is so full-
ly occupied in my various
duties that it is questionable
if I could undertake so much
extra responsibility without
much inconvenience and loss.
You will, I am sure, sympathize
with

with me under all the circum-
stances and help me too to
the best of ^{your} ability.

The church at Manning's Hill
is a new ~~cause~~ ^{part of our work}, comparatively
established in a thickly populated
neighbourhood which gives prom-
ise of being a very fruitful church.
The day school there, under an
native teacher, John L. Kelly, is
now in good working order
& which passes Government exam-
ination with satisfaction to
all parties. The people there
have built for themselves a
new and substantial chapel
the only help they received
being a small grant from
Government which I obtained
for them. I send a report
of this church also.

I have also obtained an
opening

3 opening grant from Govern-
ment for a school in August
Town, distant about five miles
and ⁱⁿ a neighbourhood where many
of our Brainerd people have loca-
ted. I felt it to be my duty to take
this step to meet the growing
wants of the rising race there.

I take it for granted that
as I have so much work on
my hands that you will not
be unwilling to allow a teachers
salary for August Town?

Our brethren now in the
mission are prevented by dis-
tance and indisposition ^{from} ~~from~~
helping me to any extent. I
do not in the least mind the
hard work, that is always a
pleasure, but I feel the
responsibility seriously and

And I would seriously ask
you to send us a Missionary,
a real good warm hearted
brother who would be willing
to work heartily in his Master's
vineyard, and one who would
not be desirous to quit the
field too soon.

As to myself, I am happy
that after thirty odd years res-
idence here ^{in Paraguay} I am well and
happy. My Father enables me
to attend to daily duties with
pleasure, and I hope with
profit to others. I have been
favoured with a strong
constitution well adapted
to this climate and altho
I feel nearly as strong
as heretofore, yet I am not
a young man and am
aware

aware that at no distant
day I must diminish
in strength and energy too.

I seriously hope you may
be able to send us some help.

We purpose (Dr) holding
a business meeting at Chester
field in about ten day
hence, where this and other
important subjects must be
taken up and formally
brought to your notice.

I am My Dear Brother

Yours Very truly
Geo Thompson

Brandon Hill

Apr. 2nd 1871

Rev. Geo. Whipple

Dear brother

On the
15th of last April at a
mission meeting here the
brethren voted to ask the
A. M. A. for one hundred ^{thirty-five} and
dollars for each of the two
stations Brandon Hill and
Clinton to assist in rebuilding
the chapels in those places
and for one hundred dollars

a year to aid in supporting
a teacher at - August Town
an anti-slavery of Brandon

I transmitted these requests
to you but have not as
yet received an answer
whether they were granted
or not -

Our chapel at Brandon
Hill is level with the
ground and we have
no place to meet in

One hundred dollars
contributed by the church
has been expended in
getting material for the

new chapel It is nearly
all on the ground
but - there the work has
to stop - The rainy
season is at hand
and we know not
how to get along unless
we can get help soon
from the Association to
assist us in putting it
up The people are
still willing to contribute
but at the slow way
they must contribute
it will be a very long
time before we have a
place to worship in unless
we can get assistance from

same other source

The government here
has given us a generous
grant for the school at
August Town but we
shall be unable to
open a school there
without the aid asked
from the association

We shall be very thankful
to get an answer from
this soon so that we
may know what to do
Yours very faithfully

Rev. Geo. Whipple

My dear Bro.

I am requested by the mission here to ask permission of the Ex. Com. through you for the privilege of employing a native assistant preacher at a salary of \$250 per annum to assist Bro. Thompson in the work at the three stations under his care

We are anxious to do all we can to make the expenses of our mission as light as possible ~~to~~ the A. M. A. and yet not let the interests of the cause of Christ suffer here any more than we can help. But it seems absolutely necessary that Bro. Thompson ^{should} have help from some source or both he and his work will suffer. He has three churches and three schools to care for which would give work enough for three men

We have thought of two ways to help him out
The first was to ask a minister to be sent
out from America to supply the place left
vacant by the return of Mr. Starkness

The other (by far the less expensive) was to
allow Bro. Thompson still to have the
pastoral charge of the three stations
and employ a native preacher to help
him whenever he may wish. As
two of his stations are about 25 miles
apart from each other it is quite impossible
for him to supply all three every Sabbath
or even regularly in good and bad
weather every alternate Sabbath.

We know a very excellent Christian
man here who has been a local preacher
among the Wesleyans for more than
30 years when we could now employ
As we know him too to be a very earnest
Christian man in doing good and a
very acceptable preacher to the people
we very much wish to secure him
We trust you will give us an early
answer to our request

Will you please pass the enclosed letter
for me and hand the enclosed note
to Mr. Whiting

Yours in Christ -

S. B. Wilson

Dear Bro. Whiting

Last month I wrote
requesting you to send an amount-
equivalent to \$50. paid to the sufferers
from the fires in the country in the
West. If that has been sent please
send in addition enough to make
it up to \$80. paid. If you failed
to receive my letter and nothing has
been sent of course send at once
the whole amt. i.e. \$80. paid
Please send it through whatever
source you may think best.

I ordered the following papers
for 1872 to be sent to me care of
Messrs. The Country & Wood Kingston N.Y.
direct from the offices of publication
Harper's Weekly; New York Weekly
Tribune and the American Messenger
as follows:

667
 1852
 1852

Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 18th inst. in relation to the matter of the 18th inst. and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
 Yours very truly,
 J. M. P.

I also ordered the following books

- ✓ 1 Copy Barnes Notes on the Gospels
- ✓ 2 Copies of Lange's Commentary on John
- ✓ 1 Copy Beecher's Sermons with portrait
- ✓ 1 Copy each 4th 5th 6th & 7th Willsons Readers
- x 2 Day Fresh Laurels } Biglow & Main
- x 2 Day Bright-Jewels }
- ✓ 4 Grass Maffats Pills
- ✓ 2 Bayes Browne's Bronchical Tracheas
- ✓ 1/2 ^{doz} Clocks worth about \$3. each (Cetogan)

If the above articles & newspapers have not been ordered & sent on I would be very much obliged if you would send them on as soon as you can.

I believe I have here 2 Day each of the Fresh Laurels & Bright-Jewels ^{in paper at one} but if nothing has not been sent -^a please follow this order.

Yours very truly

3 Brandon Hill Samarra
3 Apr. 3rd 1872

Rev. Geo. Whipple
59 Beade Street New York

My dear Bro.

We are very
thankful for your communication of Feb 27th.
The permission to employ an assistant for Bro.
Thompson in our present straightened circumstances
is a very great help to us. Mr John McLead is the
name of the man we have employed

We shall endeavor to reduce ^{an} amount we have
asked for building purposes all we can and call
on you for only what we cannot absolutely do
without. At Eliot we shall be able to reduce it
considerably.

Our missionaries here have felt it very much
that we were not able after so long time to bring
our churches up nearer to the position of self-
support and for the past ten years we have been
unflinching in our efforts to educate them up to
this or at least much nearer to it. We have ac-
complished much for you will bear witness
that we draw far less upon you for our
schools and also repairs of our buildings

But I am afraid we have looked far more than
we could reasonably expect. It costs nearly as much
to build and to keep in repair our chapels here as
it does the churches there accommodating congrega-
tions of the same size. I know our chapels are
much inferior to the churches there in appearance and
construction but I can assure you they do not cost
much less. for every kind of building material
is very expensive and very difficult to be brought
on the ground. For every way it costs quite as much
to maintain their religious institutions here as it
would there but how does their ability compare
with the ability of Christians at home. There
are but few of the members of our churches but
that are glad to get employment at one shilling
and three pence a day (about 30 cts) and board
themselves besides. It seems to me dear Bro. that for
some time to come even if our people do the best they
can, that we shall have to do a great deal for them.
But I hope it may not be in vain, I believe the
work is Christ's and that he will bless it to the good
of our people and also to those who both directly and
indirectly have accomplished anything in it. Some
do not do what they ought ~~to~~ we know
and with such we must continue to labor
to bring them up to a higher sense of their
duty. But some are doing well.

Unsettled - Down is four miles from Brainerd
The place has been settled by Brainerd
people who still keep up their connection with
Brainerd church and attend there every Sabbath
for public worship; but of course it is too far to
send their children to school. There are about
one hundred children in the place and as their
parents are now church members we feel under
obligations to give them a school. The government
here has already given us \$1100 paid for it which
with ~~with~~ the labor of the people living there has
enabled us to put up a school house which will
serve not only as such but as place to hold occa-
sional meetings in. We expect the government
will aid us in the support of a teacher with from
\$50 to \$100. a year. We have opened the school
already and it promises well. Please let us know
soon whether you authorize the appropriation of
\$100 a year for the support of a teacher as we do not
wish to leave him long in doubt.

I have recently had a severe hemorrhage of the lungs
but I am thankful to say however that I recovered from
it well. I was prevented from preaching but one Sabbath.

Please hand the enclosed note to Mr. Wishing and forward
the enclosed letter.

With my kindest Christian regards I remain
Yours Affly,
J. B. Wilson

3 Brandon Hill Sam.
3 Aug. 10th 1872

Rev. Geo. Whipple

My dear brother

I have neither
increas nor decreas to report in refering
to the church here at Brandon Hill
with the exception of the loss of our
members by death. You are aware that
just about a year ago we were
compelled to take down our chapel
and we have been without a house
of any kind to worship in during
the year. A few of the people have
now and then met in the yard
of one of our deacons and others
when the weather would permit
have gone to Providence Station five
miles away where I have preached
every Sabbath. Our people have suffered
for the want of their usual religious
services. Some could not go to
Providence at all and none could

2nd
go regularly. They say they are
"hungry" to have the chapel up and
to be able to attend again."

Of course we could have no well-
organized plans of working and
in such a community as this it is
very essential in order to accomplish
much for the souls around us as
well as to promote the health of those
in the church that all of our services
are well kept up and that our
people are as actively engaged
as possible. I am glad to report
however that our new chapel is
well under way and that soon we
shall be able to use it. I am also
glad to report that the people are
very earnest and active in helping
it on. They have contributed altogether
about \$150. in money which considering
their ~~their~~ ^{circumstances} is doing
very well. They have also had a great
deal of heavy work to do in bringing
the material for the chapel on the ground
which shows their interest in the work
and which I hope promises us some
thing good when we get it completed.

I can assure you it was extremely difficult for the people to bring out the sills and nearly all the other timbers, the boards and the shingles from the woods and this without any other sacrifice would show well for them. One morning I went out on the road over which for three miles they had to carry the heavier pieces of timber and saw five or six men among which was one of the deacons of the church carrying a piece of timber that was about all they could do to stand up under and this they were obliged to carry up a very steep hill and over very rough and narrow roads.

Another time I went in the wood about the same distance away from which the young people and the children were bringing out the shingles and here the path was so very narrow and up and down such steep places that I could scarcely walk without a burden and I was surprised at the heavy loads they would carry by.

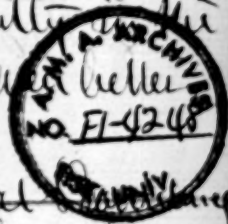

When I saw what they were willing to do in this way I felt they were deserving of great praise but of some assistance I have to help them out and I am very glad of the assistance you have given us. Our work was at a stand still. We had had no money to employ carpenters and although the people were willing to give work they found it more than they were able to do to give money enough to put it up. We were all getting quite discouraged but now that the carpenters are here and the work going on all feel hopeful and ready for new sacrifices. The carpenters rejected a great deal of the material they had brought and even a number of the largest pieces, but they went to work very cheerfully and brought out new ones.

We hope soon to have the chapel so that we can use it and we hope to enjoy better things for the sacrifices we have been called to make. I hope soon to be able to send you a cheerful report of things ~~here~~. We have some looking of it even now. We have seen things to make us rejoice in the

6th

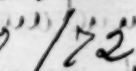

past and have felt that the blessing
of God was upon us and we hope he
will bless us more abundantly in the
future and that we shall see better
things

I have enjoyed my labors at ~~St. Mary's~~
this year very much and have felt
that God has blessed his truth to the
little church there. Only two members
have been added to the church and one
member restored. But an improving
class has been formed from which
sundry will soon be gathered into the
church. The congregation has been
unusually good. The school was
closed for six months and the
Sabbath school suffered somewhat
because the teacher was away to a
training school to be drilled in the
practice of teaching, in which he was
deficient although his qualifications
~~otherwise~~ were quite good. He has
returned and the school will soon
be reopened and we trust a new
interest given to the Sabbath school.

The contributions for religious purposes
for the year were about \$45.

Camacho.

The Committee on the subject of the
 proposed amendment to the
 Constitution of the State of New York
 has the honor to acknowledge the receipt
 of your communication of the 10th inst.
 and in reply to inform you that the
 same has been referred to the
 Committee on the subject of the
 proposed amendment to the
 Constitution of the State of New York
 for their consideration.

Bro. Venning has given me the report of the church at Chesterfield and wishes me to give you his kind love and say that he would like to write you but that he is quite unable, and he says to tell you that it would give him no little pleasure to hear from you if with your numerous duties you were able to write to him.

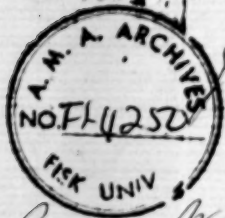

The Church at Chesterfield is prospering in almost everything. It is gratifying to see, notwithstanding ~~that~~ their minister is an invalid that with him there merely to guide things how well everything moves. It should moreover that his labors there in the past have not been in vain. He has labored hard there for many years - he has had many discouragements and his share of trials but he likes to see that his labors have not been ~~unprofitable~~ ^{unprofitable} and to see many things to cheer him. When his labors are about over

judging from the reports given at the last meeting of our Association here I should say that things were looking brighter at nearly all of our Stations. It is true our laborers are few but we feel that God is with us and we expect to see good accomplished in his name.

Trusting we shall have your continued prayers
I remain - your brother in Christ

Rev. George Whipple Sec. A. M. A.

My Dear Brother

Herewith I forward
to you the reports of three churches
under my pastoral care to the
1st inst.

Altho we have sustained a
loss at Eliot yet I am hopeful
of that little church. Main that the
Chapel has been rebuilt and is in a
fair way to completion, the congrega-
tions thicken up, and the Sabbath
school is well attended, both by
children and adults. This institution
gives me much comfort and I do hope
that God his mercy may be pleased
to call many precious souls to himself
through Sabbath school instruction.

The

The population at Eliot is sparse and the district is not altogether a desirable one to settle in, and many persons when they grow up prefer to settle elsewhere, we can not therefore expect the church to be large, but we feel it to be important that those who leave us should carry the gospel with them.

Most of the teachers in the Sabbath school are young persons who grew up under the care of Missions early on the field, we now reap the reward of their labours, thank God and take courage.

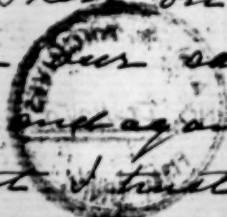

you are aware, I believe, that Miss Woodcock removed down to Richmond, where she established a school which now numbers about forty pupils. Miss W. had no alternative as the whole building at Wash. became untenable and had to be taken down.

But now that the Chapel has been rebuilt, the friends there are anxious to reestablish the
 day

Day school there, and I am anxious that they should do so, provided however, that it shall be Industrial and self supporting, asking Government aid only, as a matter of right.

Death has been busy at Brainerd and four of our members have left us for a world of spirits, and a few persons have left the world to join our communion.

I am glad to say that our congregations here are good, both Sabbath and day schools are well sustained, the word of God is listened to with good attention and several persons have applied for fellowship with ^{us} some of whom we hope to receive at our next Church Meeting.

Then on the other hand we have  our cares and anxieties, and now ~~and~~ again serious disappointments, but I trust that these things are made a blessing to many, as we learn
to

To rely more entirely upon divine aid.

Mr John Dillard, my assistant, is now at Brandon hill where he is building a Chapel for Bro Wilson when that is done he will be mostly employed here at Brainerd and I will devote my time between the two small Churches viz Elliot & Manninghill.

Of the Church at Manninghill I am glad to be able to speak with much comfort and hope, we only lost one Member during the year, a few have united with us, and others have applied, two of whom will doubtless be received next Church meeting. The day school is well established and passed Govt examination with credit ^{both} to teacher and pupils in the early part of the year. As did the school at Brainerd also.

I deeply regret that our collections are so small. I did hope for some improvement in money matters at the

⁵ The beginning of the year but I have been disappointed, partial failure of crops throughout this part of the country is the cause of this, our people are poor at best but in the event of a failure of crops they become very poor.

It appears to have fallen to the lot of your Missionarys to dwell amongst the poorest of the poor in the land, and to them we preach the Gospel.

Our young friend, Mr Henry Wolcott, kindly took charge of a barrel of fruit for you when he returned to New York, I should be glad to know if it reached you in good condition, and if you can suggest a better mode of packing, as I hope to travel again.

I forward, three Bro Wilsons, £9. 1. 0 being Missionary collections for the year.

With much love, I am

My Dear Brother
Yours very truly
Geo Thompson

39. Beade Street New York

Another year has come for me to render to the S. M. A. an account of my labors in the school room. No doubt you have been informed ere this that I left Eliot last September as the building there was not suitable to remain in during another rainy season. The building was to be pulled down and another one to be rebuilt or whatever the workmen thought best to be done, with the building. I came to Richmond and rested during the rainy seasons which did me much good. During this time the plan was that I could reopen a school here as there

were many children that did not attend school any where, also many of the children at Eliot could be accomodated here also—

I opened school the 8th of January with B. children, but as each week came round new ones were admitted so that my number was soon up to 40.

As I am encouraged to go on as Richmond is a central place and a good locality for a school. I began teaching in one of the rooms of the house that I occupy but as my school increased I removed to the Court House which was formerly the school room, where Mr. Webb taught.

I closed the last week in July for the boy's vacation. — I had 50 on the list and 38 of this number commenced with A. B. C. about half of this number could read quite well.

³ in the testament and also could
begin to write simple words on
slates, and all could make
the figures, and some quite ready
in simple sums of addition &c &c
I shall open again the first Monday
in sept. During the past 7 months
I have not been absent from the
school room a day on account of ill-
ness. 3 day the school was closed
on account the rain. During these
months,

I remain Yours

Wm L Woodcock

Oct 1/

Dear Bro. Whipple

I have noticed that - for
a year or two the general summary
in your Annual Report at the head
our mission - does not fully represent
the extent and importance of our work.
It is especially deficient in reference
to our schools. - Thinking this may
arise from the fact that our reports
came before you separately, and perhaps
some of them may be incomplete.

I have taken the trouble of collecting
the statistics from the brethren here
as perfectly as I could and will
send them to you arranged
together with a few remarks
upon things generally in the
mission. - Having each one to write

of affairs at his station
You will see that we have
6 stations } 9 schools } 24 stations. and nine schools
Our total church membership is 498
and those attending our chapels
regularly is more than 1360. While
those attending occasionally would
be considerably more than this.
The whole number attending our schools
is 738 and 500 in constant attendance.
We have 10 teachers in our schools
all of whom have been educated
either among ourselves or at the
best institutions in the island, and
most of them especially trained
for the work of teaching. so that
and the our schools ~~now~~ are better in
character than they ever have been
before. Nearly every one of them
conduct services on the Sabbath
and some of them quite acceptably
Without their assistance we should
hardly be able to manage
our 6 churches and 9 Sabbath

Schools - only three ministers
It is a most gratifying thought to us
that we have the education of
over 700 children. I will not
undertake to tell what will be the
influence on a country so dark as
this of over 700 children educated
no longer than they will be in our
common schools. They will form
the nucleus for our churches in the
future. ~~but~~ ^{over a national board of} ~~but~~ ^{different} ~~but~~ ^{our}
churches will be constituted of this
material from what they have been
the first. What trials we have
had with the ignorance and super-
=stition of our people. No more
than anything else, has been the
great chain back to our prosperity
But to have our churches built up
of those who have been
sacrificed - educated but of those
+ who have been under christian
training promises us altogether
better things in the future
And to bring that is exceedingly

gratifying in our work. We show
the progress we are making to the
men ^{that} have to depend more or much
upon foreign assistance as we have
had to do. When I ^{the mission} joined about 14
years ago we then had 23 foreign
missionaries with only one or two native
assistants while now we have only
7 missionaries and 10 native assistants
which with their families makes our
force fuller than it was then although
we have only 7 foreign missionaries
against 23. Our churches number
nearly 500 churches ^{now} against 365 at
that time. Our schools number
over 700 scholars now against 415
then. Our mission cost the A.M.A.
annually at that time between
\$5000. & \$6000. while now it is about
\$3000. ^{and} our schools are really better
now than they were then not
because our teachers are better edu-
-cated but because they have been
especially trained for this work.
We have often been discouraged in
our work but these facts show that
real progress is being made.

Mountain Hill.

The principal thing I have to report here ~~at Mountain Hill~~ is the reopening of our chapel. It is not near finished but - having no other place in which to worship we are obliged to use it - in as comfortable as it is. It had cost us so much especially in labor and ~~we~~ had been without regular service so long that it was a real joy to us to be able to use it again. Some who could not be present - on account of sickness the Sabbath we first met in it - said they shed tears of joy when they heard the voice of singing again in the place. There are many in the community that do not care for the gospel but I am sure I do not know what some of the poor people whom we have gathered around us would do should they ever be deprived of the religious privileges they now enjoy. We reopened the chapel in January and since then our congregation has been good. Our prayer meetings have generally been well attended and more than usually pleasant. There has been about 100 scholars

in the Sabbath School and over 200
in the Day School. As we have received
such an accession of scholars to the
day school I have no doubt that we
shall soon have a large number
attending the Sabbath School. & I have
contributions of the church this year
have been about the same as usual
we have had to devote the greater
share however to rebuilding the
Chapel. Besides this the people here
have had a great deal to do
in the way of labor. I added
what they have done in this way
of labor to consider more than
what they have done in the way
of contributions in money.

I have not much to say in reference
to the church at Providence. The church
there is quite small, ~~but~~ ^{and} ~~is~~
smaller than any other in the mission-
ary field. It has sustained a greater loss
than any other of our churches.
It has now only a small number.
It is exceedingly poor - far more so

get-along these for all ^{the} work on
the station and all its expenses must
be borne by these alone. and if they
did not show more than a usual
amount of self denial and a more
than usual interest in the affairs
of the church we could not get-along
at all. I cannot tell why it is that the
church there is not more prosperous
for there is not one of our churches in
which there is more earnest piety and
in which there appears so much love for
Christ and so much love for souls
as in the church at Providence.
The lives of the members are very happy
too. I know that the ~~excessively~~ ^{excessive} amount
is very bad and that there are very
many bad influences at work that
makes it very hard to ~~bring~~ ^{bring}
morality under good influence
still we cannot but believe
that the time will come when they
must be affected by the religious
influences in their midst. I
cannot but believe that
love and prayer will be making

I have ~~no~~ no doubt - that if I could devote
more of my time and labor there it would
be better for the church - as this
Station is in every respect - the most
impendent - I have to devote altogether
the greater share of my labor
here. I have ^{there is} a good teacher Miss
hannah who has been long in
the mission and ^{who} is a good child
~~and~~ quite intelligent too. she preaches
often & can not - there and she seems
to please the church very well
Her assistance in the church is very
valuable to me

The congregation and Sabbath school
are never very large at Providence
but they have been as large as usual
this year.

As for the whole I have never felt
that our mission was accomplishing
more for Christ than ~~usual~~ at
that - God was blessing us ~~more~~
more abundantly. and in reviewing
the year we feel that we have
great reason for gratitude & thanks -
Yours very sincerely
L. N. Wilson

Beaumerd Richmond Post Office

Jamaica Sep 12. 1873

The Rev George Whipple Sec A. M. A.

My Dear Brother

I was so seriously ill
all last month that I could not write to
you, as usual. having suffered from an
attack of erysipelas in the head. but I
gave Bro Wilson the statistics of the three
churches and four schools under my
care, to be forwarded to you. Since then
we have received eight new members into the
church at Beaumerd, by profession, four males
four females, should this reach you in time
and you have no objection, I should like
to have them added to the membership now
as they would have been received in the
month of July but for my affliction.

I am glad to be able to say, that
our Sabbath day services are good, the Sal
school is well sustained. The district prayer
meetings are well attended, and that five per-
sons have applied for ch fellowship with us
during this week. - of those who died during
the year, it was my privilege to stand by
the dying bed of two of them, to hear their
last words, and to witness their last struggle with
the conquered enemy. - of course we have
and

Our sorrows and disappointments in common with all the Lord's people but we enjoy many favours too and, I am sure of it, that a good work is being carried on among ~~us~~ us.

The day school under Mr. Martin Harris gained 43 marks and passed second class under Govt inspection.

The new day school at August Town, under Mr. George Muldrey, gained 28 marks and passed third class, also under Govt inspection.

¹¹ of this church
~~at~~ Mennings Hill I am glad to be able to speak hopefully. The new Chapel is now too small for us, the Sab school alone fills it, and we cannot, comfortably, accommodate ^{us} all who come, we must enlarge ere long. The bible class is unusually good, old and young, taking deep interest in it, ~~altho~~ some of the former cannot read yet they derive much good and gain a store of scripture knowledge which is very comforting to us all. I conducted this class three Sabbaths ago when the good old Deacon "Edward Small" wept for joy as he listened to his children and grandchildren repeating verses from memory and tracing the connection between the old and New Testament. This aged brother was once a slave

A slave, when he suffered much
in the cause of truth and righteous-
ness. Edw^d Smith is now old but ac-
tive in his Master's cause, which he
loves. The day school under John Lewis
Kelley is good, having gained 39 Marks
and passed third class under Govt in-
spection.

At Eliot. There are good signs
of improvement. The new chapel fills
~~well~~ which is too small for the grow-
ing congregation. ~~now meeting there~~ ~~at~~
~~night~~ in faithfulness to say that there
was a root of bitterness in the little Ch
which, ~~of course~~ ^{but the trouble was} did more or less harm
but this has, I hope, been removed. ~~and~~
that we may now enjoy prosperity in
this little Church. The Sabbath School is
very good, as it has been for some years,
and is, I hope and believe, the ground of hope
for the growth of the Ch.

Mr John McLeach
labours there mainly, giving a Sabbath to
Brainard & to Richmond occasionally.

The day school under
Mr Larchin Bishop gained 25 Marks and
was placed on the list of Govt schools as
'exceptional'. The Govt Inspector gave us a
favourable

Favourable report both of School and Teacher in which he said that he had "no doubt but that the school would be brought up to a good third class school next year."

Now Dear Brother permit me to say a word or two about myself.

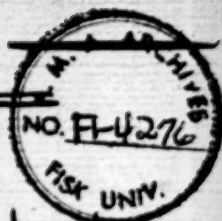

I have spent more than thirty years in this land, have had a share of - troubles, I have enjoyed many mercies, and it has always been my desire to do good in the name of our Lord and Saviour Jesus Christ. This is my desire now, and I would not quit the field for a single day, ^{and} ^{ne-} ^{lessly}; but my health begins to fail and I have been advised to take a trip off the island, which I shall be glad to do in the spring of next year, if spared so long.

Do you think the A. M. A. will grant me three or four months leave of absence and at the same time afford me some little ^{extra} pecuniary aid? I have a relative, and two or three friends in America, who have written to invite me to their respective homes.

May I rely on your kind advice and aid in this matter?

I am My Dear Brother
Yours sincerely
Geo Thompson

Kingston. Oct. 1873

Rev. C. B. Denning

rec Nov 14/73

Rev. Geo. Whipple

My dear Brother

You will doubtless be surprised at seeing my hand writing again after having heard of my late severe & protracted illness & the very low & precarious state in which I lay for some weeks. It has pleased our heavenly Father however to raise me up again contrary to the expectations of all my friends. I have ^{been} ~~been~~ from being restored to my wonted health yet I was able a short time since to visit Chesterfield again after an absence of nearly a year. I was

brought to Kingston in Sep-
-tember last year in a very weak
condition & during my stay here
I rallied a little so as to be able
to walk about the house & drive out
in a buggy but just as I had planned
to return to the Mountains I was again
taken down & was confined to my
bed for about four months during
which time I became so emaciated
that it seemed impossible that
I could ever rally. But as the un-
-favorable symptoms gradually a-
-bated I began very slowly to gain
-er strength. By the 1st August I
had so far recovered that I was
able to travel in an easy carriage
up to within three miles of Chester
-field & thence to ride on horseback
up the hill to my mountain home.

On the same day there was a gather-
-ing of the Day School ^{about fifty or more} children &
several of their Parents met to

celebrate the day in a kind
of school treat. Many of the scholars
recited pieces & all joined in many
merry & sweet songs. Before they
closed I was helped down to the
chapel when I spoke a few words
to young & old thankful to my
Heavenly Father for the opportunity
which I had expected never to have
again. The school has kept up
better than I could have expected
during my long absence especially
considering several unfavorable
circumstances which I feared would
affect the attendance materially.

During the fall of last year the
hooping cough was very prevalent
among the children. From the com-
mencement of the present year the
small pox has been epidemic through-
out the district. & worse than all
a most serious fact came to light
in December last which threatened
to break up our school operations

altogether for a time at least.

The Eng Man whom I left in charge of the school when I left, for Kingston last year fell into most grievous sin. His ^{previous} exemplary conduct as a Xian & his devotedness to the work of sch. teaching had won the confidence of all who knew him. His fall therefore greatly shocked the whole community.

Of course he had to be set aside at once & so far as I could see the school must be closed for an indefinite time, for Teachers of the right kind are scarce. But the good Lord found one for us - a Eng man who had been trained in one of the Govt Training Colleges & who had just graduated with a diploma as a T. & Chap Teacher. But best of all he came to me with the recommendation of being a ~~truly~~ Xian. This character as well as his reputed teaching qualifications, he has up to the present time I am glad to say well sustained. He was sent to us too just at

The needful time & it has
 been no little comfort to me while
 lying on my bed a helpless sufferer
 to know that God had provided
 one so well qualified to teach &
 train their ^{of this people} children & not only so
 but one gifted also to fill my
 place in the public ministrations
 of the Sabbath ^{beginning with} day gatherings of the
 Brethren of the Church & others. I hear
 nothing but expressions of how much
 they like his teaching. Thus my
 heavenly Father seeing my feebleness
 has provided me a good Assistant.
 Although he did not seek it, yet I
 feel myself ~~responsible~~ ^{grateful} for Wm. McLaugh-
 lan's services which he gives in addi-
 -tion to his labors in the school.

As I have said I returned to Ches-
 -terfield on the 1st August. For a week
 or two after I went up the weather
 was tolerably fine but soon heavy
 rains commenced & the climate became
 so damp & bleak that I was obliged

to spend myself in my room a
good part of the time still I was
permitted & strengthened to preach
on two Sabbaths out of the five I was
there & to attend all but one of the weekly
meetings of the Church held every Wed-
nesday morning. This gave me the
opportunity of giving them counsel
in many things which my long absence
had made them feel the need of & of
strengthening & comforting many who
seemed more than ever susceptible
of good impressions. I think I never
knew the people so kind & consider-
ate towards me as on this my last
visit to them. Some of them were be-
coming cast down & dispirited expecting
never to see me in their midst again &
now when in the kind Providence of God
I was permitted to visit them I speak
the good word to them they seemed
cheered & began to encourage one an-
other to lay hold afresh with heart &
hand in every good work. They have
had a heavy work on their hands

for some months. Digging down
the top of a high ridge just adjoining
the Station which we have lately se-

lected for a site for a new Chapel.
They have a tardy way of doing
such things - coming out occasionally
in a company, once a week or once in
two or three weeks as it suits them.

In this many of them were getting
weary - in part probably from the
stomachs with which they carried it
on. They had become negligent also
in assembling themselves together at
their weekly prayer meetings - for so it
is that our dear people on being depriv-
ed of their ^{earthly} Guide & Head, for a time soon
begin to get slack in such duties.

This is not a good symptom of
course, showing that they do not real-
ize their relation to the great Head
of the Church as they should & what
is also painfully manifest under these
circumstances, their want of confidence
in one another. Hence the old proverb

"union is strength" is seldom realized by them for any length of time. But while I write, I call to mind that this defect in their spiritual condition is not peculiar to Jamaica Churches. There are not a few in countries far more intelligent than this which remain in a state of pupillage for years. As one evidence, if many a Church both in England & the United States will neglect partaking of the Lord's Supper for months if during that time they can get no ordained Minister to dispense it. Thus make void the command of the Lord "this do ye" by their traditions.

But to return to our people. I have endeavored in my ministerial way by teaching & otherwise to correct in them this undue dependence on the under Shepherd striving as much as in me lay to have them realize their relation to the great Shepherd

(3)
I Bishop of their souls that they
might grow up into Him in all things.
My labors in this direction have
not been I hope altogether in vain.
Still with the evidences continually
before me of how far they come short
of an intelligent & close union with
Christ & how feebly they are knit
together in Him. I cannot regard
the prospect of the Church at Chester
field being left to themselves with
any thing but anxiety & fear. But
it is not wise for me I know to
distress myself at all in this matter
Let me rather commit the future to
the great Head of the Church knowing
that He cares for His people infinitely
more than I can. It frequently occurs
to me that perhaps God's late deal-
ings with me are among the things
which He is using to bring them to a
more perfect reliance on Himself &
to train them how to be subject one
to another. I how to carry on His work
if at any time it be His will to deprive
of an earthly guide & head.

But I must close. I have taken several days to write this doing a little at a time. I hope to be able to write ^{not long hence} you again, if God will. The statistics of Chesterfield Church which I forwarded to you through Bro. Wilson do not show as you may have noticed a very encouraging state of things.

In my next letter I hope to be able to give a more full & particular account of both good & evil among us. I remained at Chesterfield about five weeks when the rains were becoming so frequent & heavy that it seemed best for me to return to Pingeton. I wished very much if it would have been safe for me to remain longer. But during the rainy times it is not of much use for me to be there in much as the people wished me to stay among them. yet knowing how the cold & damp would be

likely to affect me they desired
that I should leave the mountains
especially before the heavy October
seasons set in. And surely it was
a kind Providence that guided me
in coming away for ever since I
came here the rains in the mountain
regions have ^{been even} more constant & heavy
than usual at this time of the year.

You will be glad I know
when I tell you that God was
with me in my late illness sancti-
fying my bodily sufferings to the
good of my soul. Never before have
I had such an overwhelming sense
of my sinfulness in His sight & bless-
ed be His name, never before have
I had such a sense of His presence
comforting ^{me} with His good & gra-
cious promises I now as I am
partially restored my earnest prayer
is that the end of all His dealings

with me may be fulfilled in me.
If it please Him that I should
still recover strength & make another
visit to ~~our~~ mountain home & the
sphere of my labors may the healing
power of the love of Christ so com-
fort & strengthen my heart that
I may be used of Him to comfort
& strengthen & establish His people
in every good thing.

And may the Good Lord com-
fort & sustain you dear Brother
in the prosecution of your very
responsible & arduous labors
& cause you to see His good pleas-
ure resting on you & all associated
with you & in the work of
your hands

Yours Brother
O. B. Jennings

P.S. Please send us the Annual Report
of the Society as soon after its publication

My dear Brother

Yours of Oct 7th

is just at hand. I ought to have
received it a month earlier. It
will be impossible for the brethren
to meet so that I can send you
an official reply before the next steamer.

As an individual member of the
mission I would say that I have
felt that the time could not be
far distant when the A. M. A. must
close its operations here but I had
looked for a more gradual winding
up of our work than I fear will
be satisfactory to the friends and
supporters of our Society. Indeed
we have been gradually winding
up for several years. We have

1871
1872

1871
1872

1871
1872

tried to keep up our churches and schools in as full vigour as possible but at the same time we have tried to be as little burdensome to the Society as we could. We have supplied native teachers for our schools and when any of our missionaries have left we have tried to supply their places without asking for more to be sent and notwithstanding we have felt our forces to be much too small for our work.

If compelled to do so we can still greatly reduce the expense of our mission but I do most earnestly desire that the A.M.A. will not drop the work here altogether. I cannot doubt your willingness to provide reasonably for your missionaries but my greatest anxiety is for our churches. I am certain that no British Society will adopt them for the British Societies are as anxious to be relieved of aiding in the missionary work here as is the A.M.A. and in fact are gradually

Withdrawing their aid. I am equally certain that our churches cannot support their own missionaries. The most they can do is to support their teachers with the aid of the government school funds and keep their chapels in repair.

I should be very thankful if the A.M.A. could only keep two or three ministers here, just enough to oversee the churches, superintend the schools and keep things running right - generally I cannot bear to see our churches broken up and the members scattered as I know will be the case if we are entirely without your aid.

We cannot afford to have the labor and money we have already devoted to the churches here so much lost. Besides the people have trusted in us very much and they would feel it very keenly if we were to leave them unprotected.

The brethren will meet soon and consider the plans suggested in your letter and I will communicate our united wishes by the next mail.

Will you please hand the enclosed note to Mr. Whiting yours very truly S. B. Wilson

My Dear Brother

The Mail for New York
will close to day, and I
write a brief to inform
you... of the death of
our dear Brother Wolcott
which took place at Richmond
on the 15th inst. It falls
to my lot to comfort the
widow and the few peo-
ple at Richmond who
mourn their loss, this
I am glad to do.

We have written to
his son, Mr Henry Wolcott,
and shall be glad
to hear from ^{him} as soon
as possible. Will you
be

Be so good as to say
to Mr Orting that I
have written him by
this mail touching a
sum of land at Port An-
tonio which he desired
Mr Orrell to see about

Your letter of the 9th
October came to hand in
due time, for which I
am very Thankful. I
expect to see Brother Wilson
today and will write
you fully by next mail.

I am glad and thank-
ful that my health is
again good and that
I am able to take my full
share of Mission work,
as heretofore.

I am glad too
that we enjoy much
prosperity in the churches
and

And Schools under
My care, I will give
the particulars in My next
Now that My health
is again good and My
work becoming more and
more important, I regret
that I made application
for leave of absence, altho
I should like to know that
I could take a change
in the event of another
attack of sickness, however,
I am in the Lord's hands
and I know he will take
care of me.

I will, My Dear
Brother, heartily unite with
you in prayer that "God
will guide us all, so that we
shall do his will in what-
ever we do."

} Brandon Hill Sam.
Jan 5th 1874

Dear Bro. Whipple

I have ~~been~~ ^{been} ~~thinking~~ ^{been} of the mission met in Kingston Dec. 27th to consider your letter of Oct 7th in reference to the proposed relinquishment of our mission by the A.M.A.

For regard to a transfer of our churches to a British Missionary Society we would say that a few years ago at the request of the A.M.A. we canvassed the whole subject thoroughly and we found it quite impracticable then and there are reasons why it would be more so now. It would be against the policy of any British Society.

having missionaries here to
take up any new work, insubstaining
any new ability of money
have were ready to take up our
work then and they would be
more willing now for they
are drawing their ^{and} from their
own resources as fast as they
can without serious injury to
their churches. Besides our
churches could not well
affiliate with any of ^{the} churches
around us. We undertook once
to transfer one of our churches
to the Wesleyans and it resulted
essentially in its ruin.

In regard to our churches
supporting their own missionaries
we would say that they
are quite unable to do it.
The most they can do would
be to support their teachers
above what they are already
doing. Indeed this would

be quite an advance upon
what they have been doing.
Feeling that we must go
down here altogether without the
help of the A. M. A. and wishing
to relieve you as much as
we can we will only ask
the support of two or three
missionaries here - just enough
to superintend the churches and
schools. administer the church
ordinances and keep things running
right - generally in the mission
and at the end of the present
year we will relieve the
A. M. A. of the support of ^{native} all
teachers and at the end of the
year of the support of all native
preachers by putting their support
upon our churches.

We have many misgivings
in attempting to bear so much
greater burdens than we have
ever borne before and we

Rev. S. B. Wilson

Jan 5/76

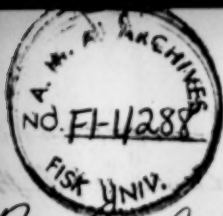

few it may result in the giving
up of some of ^{our} schools and to
the serious detriment of some of
our member churches and we
~~could~~ not consent to it at all
if there was any other society that
would take up the work and
give it such help as it needs.

We have but one foreign teacher (Miss
Wombach.) and we do nothing affecting
these relations with us. preferring
rather to leave that matter with
you and herself only we most
earnestly desire to retain her
services as long as you and
she can afford to employ them.

You may be sure we will
do all we can in every way
to relieve you and we shall
still trust that you will do what
shall be necessary for us until
our churches are able to do more.

Yours very truly

S. B. Wilson

Richmond Post Office
Jamaica, N.Y.

Feb 17. 1874

Rev Geo Whipple Sec A. M. A.

My Dear Brother

Your letter of the 23rd ultimo reached this post office on the 9th instast, for which I thank you.

I regret that my letter informing you of Bro Wolcott's death did not reach you in due time I cannot account for the delay, but I wrote on the same day and pooled it myself together with a letter to Mr Whiting which reached him in due time.

Our Bro Wolcott died on the 15th of December last after three or four months of severe suffering, from what we supposed to be, a cold and sore throat

"Throat", but it was really
a case of Inflammation of the
Larynx. Our Brother sought
Medical advice when it was
too late

We should like to see
some account of his death
in the "Missionary", Mr Henry
Wolcott is in possession of the
main particulars of his Father's
illness and death, he will
doubtless confer with you
on the subject.

I was often with our de-
-parted brother during his
illness, particularly during
the few days he was confined
to his room, and I am glad
and thankful to know that he
was firmly established on
"The Rock". "A sinner saved by
- grace", were his last words
spoken to me, very solemnly,
a

A short time before he died.
Those words seem to sound
in my ear now, as com-
ing from "The Border Land".

Mrs Wolcott desires me to
thank you for your sympathy
with her in her affliction.

It is, of course, desirable that
her son should return home
as soon as he conveniently
can, without interfering with
his engagements at Chatta-
nooga. It is his Mother's wish
and my advice, that he sh^d
complete his work there be-
fore he comes.

Please hand inclosed
note to Mr Whiting.

Will you kindly send
me, by post, the Annual report
of the A. M. A. for 1873?

I am glad and thank-
ful to be able today that
Me

Rev. John Thompson
Richmond, Jamaica.

We enjoy ~~immense~~ ^{immense} prosperity ^{2/17/74} in every department of the Mission field in which I am engaged. I will (D.V.) forward particulars by an early Mail, when I shall give you a quarterly report as you kindly suggested a short time ago.

Bro Denning is very much better than he has been for a long time.

Bro Wilson is not at all well.

Richmond is distant about five miles from Brainerd and I drop in now and again just to comfort the Widow's heart.

I am My Dear Brother
Yours very truly
Rev. J. Thompson

March 24th 1874

Dear Bro. Whipple

I was very glad to
get your letter dated at
Ballaidega. It was very kind
and has done me much good
Our field is a hard field
and though perhaps we cannot
show so much as the results
of our labor as is shown in
Mr. Southen's field in a much
shorter space of time than
we have been at work here
yet we feel that this is a
part of Mr. Master's work and
though we look for his approval
above everything else and
are willing to abide by

our work as long as he requires
it. yet amid our trials and
discouragements it is exceedingly
gratifying to know that you
and the committee also still
feel an "earnest interest" in
us and in our work.

I rejoice too in the good
things you have written from
the South. A great work is
being done there and I rejoice
that our Society for which
I have always had so strong
an attachment is the foremost
in doing that work. I regard
the work you are doing
there as the greatest that is
being done anywhere in
the world and could I have
my choice I would want to

work there. but - I cannot leave
the work here till Christ-calls
me away. I came here fourteen
years ago with the intention
not to leave until God called
me away and I am thankful
to say amid many trials and
discouragements I have ^{kept} to my
intention.

I regret to say that I have
recently been quite unwell
with another severe hemorrhage
from my lungs and I have
been so weak and unwell since
and I am so certain that I
shall continue to run down
here that I deem it imperative
that I should go home this
spring for a few months
recruiting. But dear brother

Rev. S. B. Wilson
Brandon Hall

3/24/74 Jamaica, L. I.

In all my trials and sufferings
Christ has been very near
I am thankful to say also
as well as I have been. I have
not been kept from preaching
a single Sabbath.

I shall expect to see you in
a few weeks and we will be
better able to confer together
about the interests of the
mission than we are able
to do by writing. I shall
leave as soon as I think it
will be safe for me to go
North. I would leave at once
but must fear the cold would
be too trying for my lungs.

With my kindest Christian regards
I remain,

Yours very sincerely

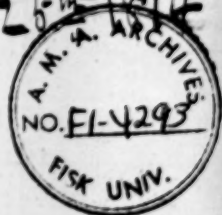

S. B. Wilson

Dear Bro. Whiting

I send with this my acct. for the quarter ending March 1st. I have received no memoranda of payments made for me in New York and consequently I have nothing to enter to your credit. With my draft for the past two quarters which I have not yet heard from I think the acct. will be about even.

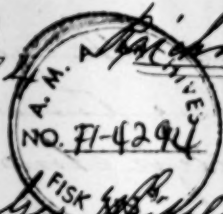

I should have sent my acct. earlier only I have been quite unwell.

Yours very truly

S. B. Wilson

4.11.72

I do not write to you as the brethren
of the Mission I suppose keep you post-
ed up in the doing of the Mission
I am here still teaching and my
school is doing very well, I have 85
day scholars. I have the entire charge
of it, and in getting the children in
school. Most of the parents are connected
with other religious societies.

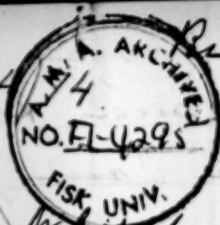

There are but two families that send
in children that are attending our
Mission churches, I have many obsta-
cles to encounter in such a school
as there is a strong society feeling
that the children must attend
school where the parents attend church
which are mostly Methodist. a few
attend the Church as it is called which
is the English Established church

The present form of the government school has a strong tendency to do away with this church. Sec-
tarian feeling. In reference to the future of the mission it is not so prosperous, especially the churches and church properties.

The schools are all prosperous much more so than formerly. In fact the schools are the life of the mission. With the present forces in the ministerial body are feasible. In this respect, the churches can not be cared for as they should. One man cannot do all the work and be absent from them part of the time. I wish it was so that some one from the ~~State~~ could come and see things for themselves. I know that some of the churches would prefer such a thing. I remain Yours

Lt Woodcock

Rec'd 4/4

Richmond P.O.
Jamaica

March 27. 1874

The Rev

George Whipple Sec A. M. A.

My Dear Brother

Your letter of the 22nd February, addressed to Bro Wilson or myself, reached this P.O. on the 9th instant. I heartily thank you for this letter, and for the assurances you have given us with respect to the Jamaica Mission. I had become seriously anxious as to the future of this Mission, fearing we might be suddenly left without pecuniary aid, and without any fixed plans for the future. The anxiety may have been needless, but I could not prevent the feeling. Situated as I am, with the prospects of being left alone in the field, your letter therefore afforded me great relief, and comfort of mind.

Yours

~~You know~~ That I have charge of
three churches and four schools,
in all of which I am glad and
thankful to be able to report
unusual prosperity, such
as we have not enjoyed
heretofore. I can report improve-
ments in a pecuniary point
of view also. The contributions
& missionary collections are
better, the same may be said
of the school fees also.
And I do hope that our peo-
ple will do much to help
themselves, but the work
must be done gradually.

Three of my Teachers are
young men, and can, I
doubt not, live comfortably
on their income from the
School fees & Govt. Aid but
Brother Martin Harris is not
a young man, and he has
been with us many years
labouring as Teacher and
assistant

Assistant Missionary, his family
is now large, mostly daughters
and I am seriously afraid
that the sudden with-
drawing of his salary may
interfere with his usefulness.
Brother Harris has brought up
his day-school to second
class. (Govt inspection) he is
the superintendent of the
Lab school which now num-
bers 130, Teachers & children
all told. he preaches twice a
month at Beained, and
also visit the sick and at-
tends to any call of Mission
work in my absence.

Then there is Mr John
McLeod. My assistant Missionary
who is a carpenter by trade
and a Christian of long
standing, he is ^{also} an acceptable
preacher. such a man
is a great help to a Mis-
sionary whose time ought
to

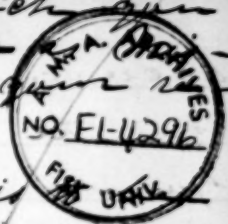

To be devoted to real Mission work, as I desire that my time sh^d be. Mr McLeod has undertaken the Management of all carpenter work in connection with my Mission work amongst the three churches. I quite agree that the churches & schools should all become self supporting, this would be right and just but the change should be brought about gradually, I think.

Bro Harris' salary was discontinued from the 1st of this month, now, Dear Brother, taking all things into consideration, may we not reconsider the step taken with respect to Bro Harris? And may I ask that the A. M. A. would allow half the amount of his salary? say £16 pr annum. but if this cannot be allowed, may I not collect from the churches and pay the
Amount

Rev. John Thompson,
Richmond P. O.
Jamaica W. I.
3/27/74

recd, 4/6/74 - h. m.

Amount to him which you
would acknowledge
voluntary collections in your re-
port?

Mr McLeod's salary is
discontinued at the end of the
current year, as I understand
it. Might we not reconsider this
question also? would the A. M.
allow just half his salary
after this year, say £25 per annum?

Such arrangements would
relieve me of much anxiety
and place me in a position
to work on in joyful hope
which I fear I could not
obtain alone. I know that the
Lord will provide, but we,
as labourers in the vineyard,
have our work to do also.

My health is now good
and I have no need of
change, but I should like
to run over and see you.

Many Thanks for your
account-

Account of the Loeds' work
in the South, on reading
your letter I began to feel
a wish to labour there, but
my work is here.

Mr Henry Wolcott has
written today that he will
return to Jamaica about the
middle of May, I am glad
of it, as his mother feels the
need of his presence at
Richmond, after all. I
hope he will not fail
to come (D.V.)

With your kindly wishes
on touching the suggestion
I have ~~after~~ made above.

I know that your time
is fully occupied, but think
of me, and favour me with
a few lines to comfort me
in my work of faith and labour
of love. I am my Dear Brother
yours very truly
Geo Thompson

Fees collected £ 2. 16. 7 1/2

The sewing class for girls is conducted
(by Teachers wife.

This school was opened in August 1872,
was inspected about ten months afterwards
and obtained Gov^t aid.

Mr Bishop has conducted this school
on the principle of "self help" and has
given good evidence of what may be
done where the heart is right.

Mr Bishop is the superintendent
of the Sabbath school also, which is an
institution of much promise.

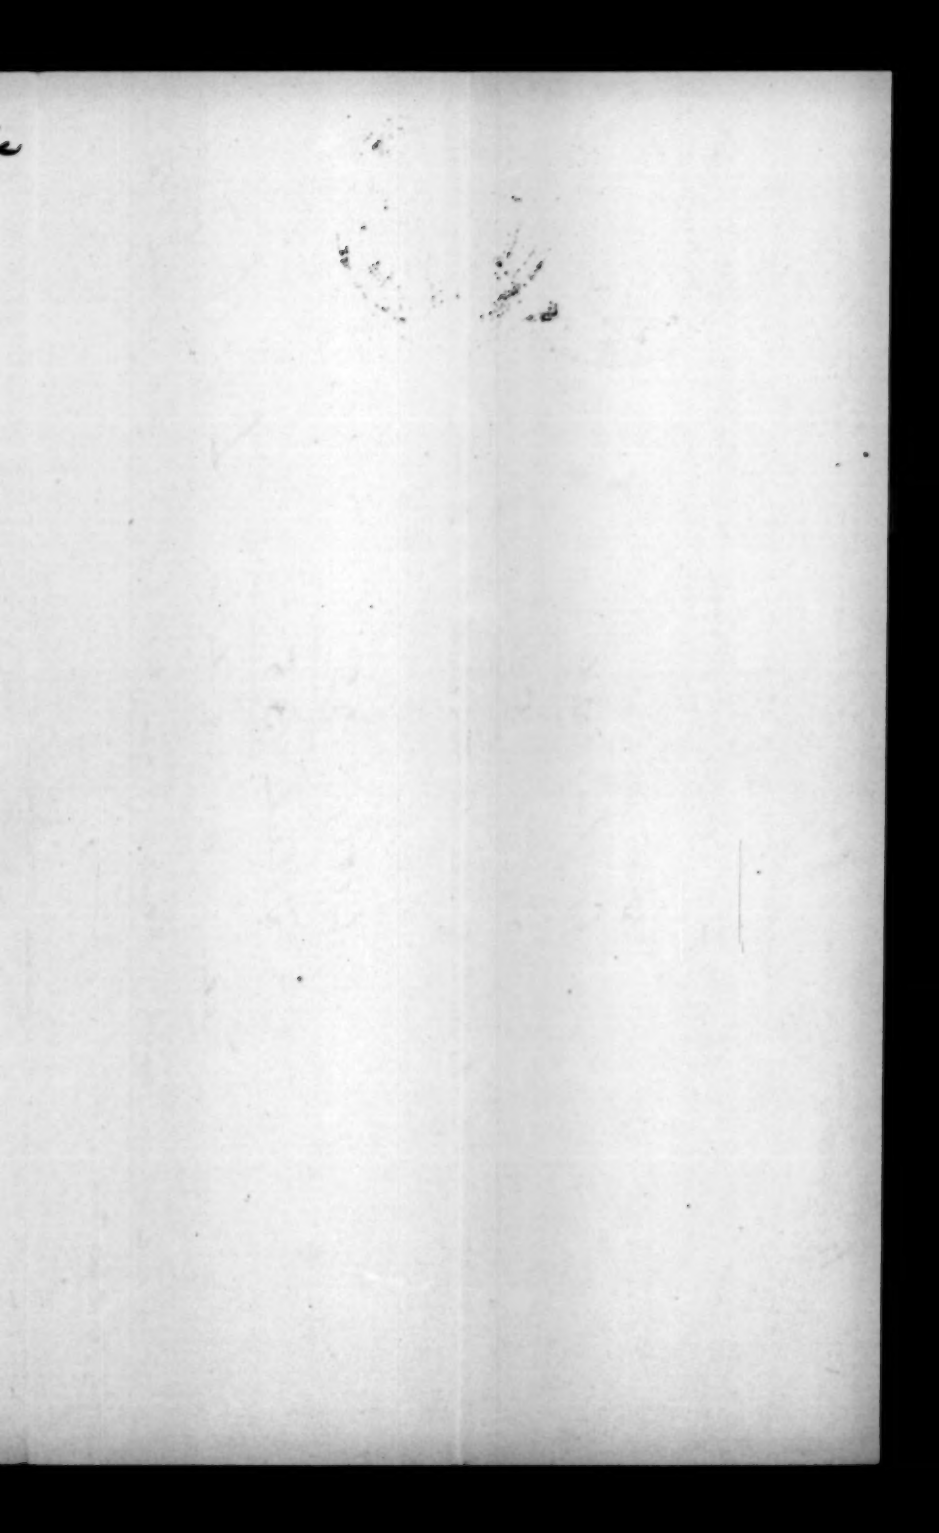

But I regret to say, that I fear both
schools may be seriously interfered with
by a worldly minded Trustee, who happens
to be the Senior Deacon of the Church.

Rev John Thompson

Dear Brother

As I have been pretty

well acquainted with the operations of the American Mission in Jamaica from the very first, and have been intimately acquainted with nearly all your missionaries, I most readily comply with your request to state my impressions - such as they are - of what has been done by the Mission for the people of Jamaica, with a few remarks on the present state of the mission as far as I am acquainted with it; and more particularly the condition of your schools during the last year or two. Indeed I feel it my duty to furnish you with some statement - just now, as I learn with regret that the Mission is being gradually reduced, and that the Society contemplates the abandonment of all its operations out here at no very distant period.

In the first place I think no one would doubt for a moment ~~but~~ that very great good has been done by your Mission in the parishes of St Andrew and St Mary during the ~~last~~ thirty five years. The people have had the plain simple Gospel proclaimed to them in language they could understand, resulting in, I believe the conversion of many souls to Christ; while

John Savage
School Inspector
Kingston, Jam.
5/7/74

much has been done by your practical men to enlighten and elevate the people to a higher platform of civilization.

It would however be impossible for me in a short letter to describe a tithe of what has been done. But I would mention one or two special features that have characterized your mission work out here.

First. Providence so ordered it that your stations should be located in the midst of some of the most benighted and degraded people in the island, a people doubly debased, so to speak, under the abominable influence of unprincipled native teachers - "blind leaders of the blind" - who held the people in the chains of heathenish superstition and vice, to the utter exclusion of all the purifying principles of Christianity.

Your missionaries have had to ^{continue} fight with these wretched false teachers more than any others in the island; and during all these years they have bravely fought the battle with the sword of truth in hand; and have rescued scores if not hundreds from the demoralizing influence of these wolves in sheep's clothing. This has (ordered no doubt by Providence) been a special work of your mission more than of any other denomination; and I feel certain that the good results are greater than we can see or estimate at present.

Brother Manning's labours at Chesterfield have been notably opposed by these emissaries of Satan. It has been a sort of life struggle with him for the last 17 or 18 years; but he has nobly held his ground, and faithfully applied the word of God to the hearts and consciences of the people. And here I would remark in passing, that a more devoted or faithful missionary I have never known, nor

even read of, than Brother Benning; while I am very sorry to find that his delicate state of health prevents him at present from engaging in the active duties of the mission ^{work} (though his good influence is still strongly felt) ~~and~~ in which his whole soul is so deeply interested.

Secondly. Your denominational system has been less rigid, or less ~~sectarian~~ than any other in the colony. Consequently there has been more freedom of thought; and real earnest ^{enquiry} after truth, and appeals to the word of God in your mission, than may be found among those who are bound by the crystalized theological dogmas of rigid sectarian systems. Moreover the influence of this liberty and toleration among your brethren has been not only beneficial to the people of their charge, but has also extended to many others outside your denomination; thus promoting the cause of truth generally in the island.

Thirdly. Practical industry and the dignification of manual labour has been another marked feature of your mission. Your ministers have not been ashamed to go into the woods & fields with their axes & hoes to engage in real hard toil, thus demonstrating to the people the true dignity of labour; and encouraging them in habits of industry and self-dependence.

And though these example in this respect has not been followed as much as could be desired, yet some good impressions have been made, and a seed sown that will yet I believe bear precious fruit.

While it was obviously of ~~the~~ the first importance that a people who had been by a

54
a long and cruel system of slavery, taught
to regard all manual labour as a degradation,
should be set right on such a vital question,
yet scarcely a missionary among the two
hundred in the island, except your brethren,
would stoop to set such an example to the
people as they required. In this your mission
has almost stood alone - the Norwegians have
done a little - and deserve much credit for their
courage & self-denial; while the continuation and
extension of such a work cannot but be
most heartily desired by all who take an interest
in the welfare of Jamaica. -

With regard to your schools I have been very
glad to observe that last year they began to look
up, and have been improving considerably ever
since. The teachers take a deeper interest in
their work, which the parents appear to appreciate
by sending out their children as they have not done
for many years past, and the schools continue to
show a higher degree of efficiency at the annual
govt inspections. The state & prospects of your schools
are certainly very cheering & encouraging just now; &
it would be a sad pity if anything should occur
to retard their progress to still higher degrees of
efficiency & usefulness. With these impressions
I should be very sorry to see your mission abandoned,
because none of the other regular denominations would,
or even could enter into your peculiar labours, the special
testimony of the American brethren would be lost; and I
fear that most if not all your stations would ultimately
fall into the hands of the ignorant & unprincipled native
teachers already alluded to; which could not be re-
garded in any other light, by all who know these wretched
false teachers, than a sad calamity. I trust therefore
that your good folks in America will be induced to
continue their good operations out here, & send out one or two

more missionaries to help you in your abominable work, as the responsibilities & labours which
you have to bear just now must I imagine be more than you can well sustain.
Yours sincerely John Savage

Aug. 1, 1894

Rev George Whipple Sec. A. M. A. Aug 1/94

My Dear Brother

In the good providence of our God I have been spared and sustained in the harness during another year, a year of many mercies and much searching of heart, during which the Lord has been pleased to give effect to the humble efforts of his servants at 'Brainerd' for the promotion of his own glory.

It is true that some of our company have been walking disorderly and have parted company with us, for a time at least: while six of our number have gone to a world of spirits.

Then on the other hand twenty-seven persons have united with us on profession, and two have returned to their first love.

I rejoice too that a few more persons are now applicants for Church fellowship with us ^{and} that ^{the} cause

Cause of God continues to ^{all manner} improve amongst us for which I trust we are truly thankful, all glory to Him whose we are and whom we serve.

Our four day Schools have made considerable progress during the year both as to numbers and proficiency, and have passed Government inspection with credit to the respective teachers, and very much to my own comfort. I will forward the Inspector's report to you by next mail, together with a few additional lines relative to my work.

Our teachers are all Godly men, whose aim it is to educate their pupils for both worlds. Some of the elder scholars are in fellowship with us, and it is known to us that several others are about to apply for church communion.

The church at Manning Hill has made steady progress during the year. ten persons in all have united in fellowship with us there while the Sabbath School has grown to an organization of considerable importance. additional accom-

modation

Accommodation has been made for the congregation in the completion of a gallery in the chapel, but we need still further accommodation to meet the wants of a constant growing cause.

Mr John McLeod, our assistant Missionary now labours exclusively at Eliot. Mr Bishop, our teacher there is the junior deacon of the Church and Superintendent of the Sabbath School, and I do hope that the efforts of those brethren may be blessed to the wellbeing of the cause of God amongst themselves. Having so much to do in other directions I may not be able to help them as heretofore, and perhaps it may be well that our friends at Eliot should study the question of "Self help" a little more than they have done.

The contributions set down in my report, now sent, do not include Missionary collections, but the collections taken up and expended for Station purposes. I will forward Missionary collections by next mail.

I fear it may be thought that our contributions are comparatively
Small

Small, I have often thought ^{deeply} and have brought the subject before the people, regarding it as a solemn duty that every one should contribute to the cause of God according to their means. Our people are poor, I know, but I question if the amount of their subscription would harmonize with expenditure in other directions.

This question must be taken up, as in the event of the churches being transferred to some other organization we shall be open to the charge of neglect, unless the present state of things, any way, it is a matter of duty which ought to be attended to.

If in the order of divine providence a transfer should be made I trust our Mission premises may be found in a good state of repair, and the respective churches and schools be found in such a state as to reflect credit on all parties interested.

May we all be directed to do right for the good of our fellow men and the glory of our Lord and Master, is the prayer, Dear Brother.
Yours very truly
Geo Thompson

My Dear Brother

I wrote you on the 1st inst when I sent my reports to that date which I trust may reach you in due time

I think I now see my way to take possession of "Downers Hope" in the parish of Portland belonging to Mr Berry of Broadway, and which he instructed us to dispose of and divide the net proceeds with him.

I will forward herewith the Gork Inspectors reports of some of our schools recently inspected.

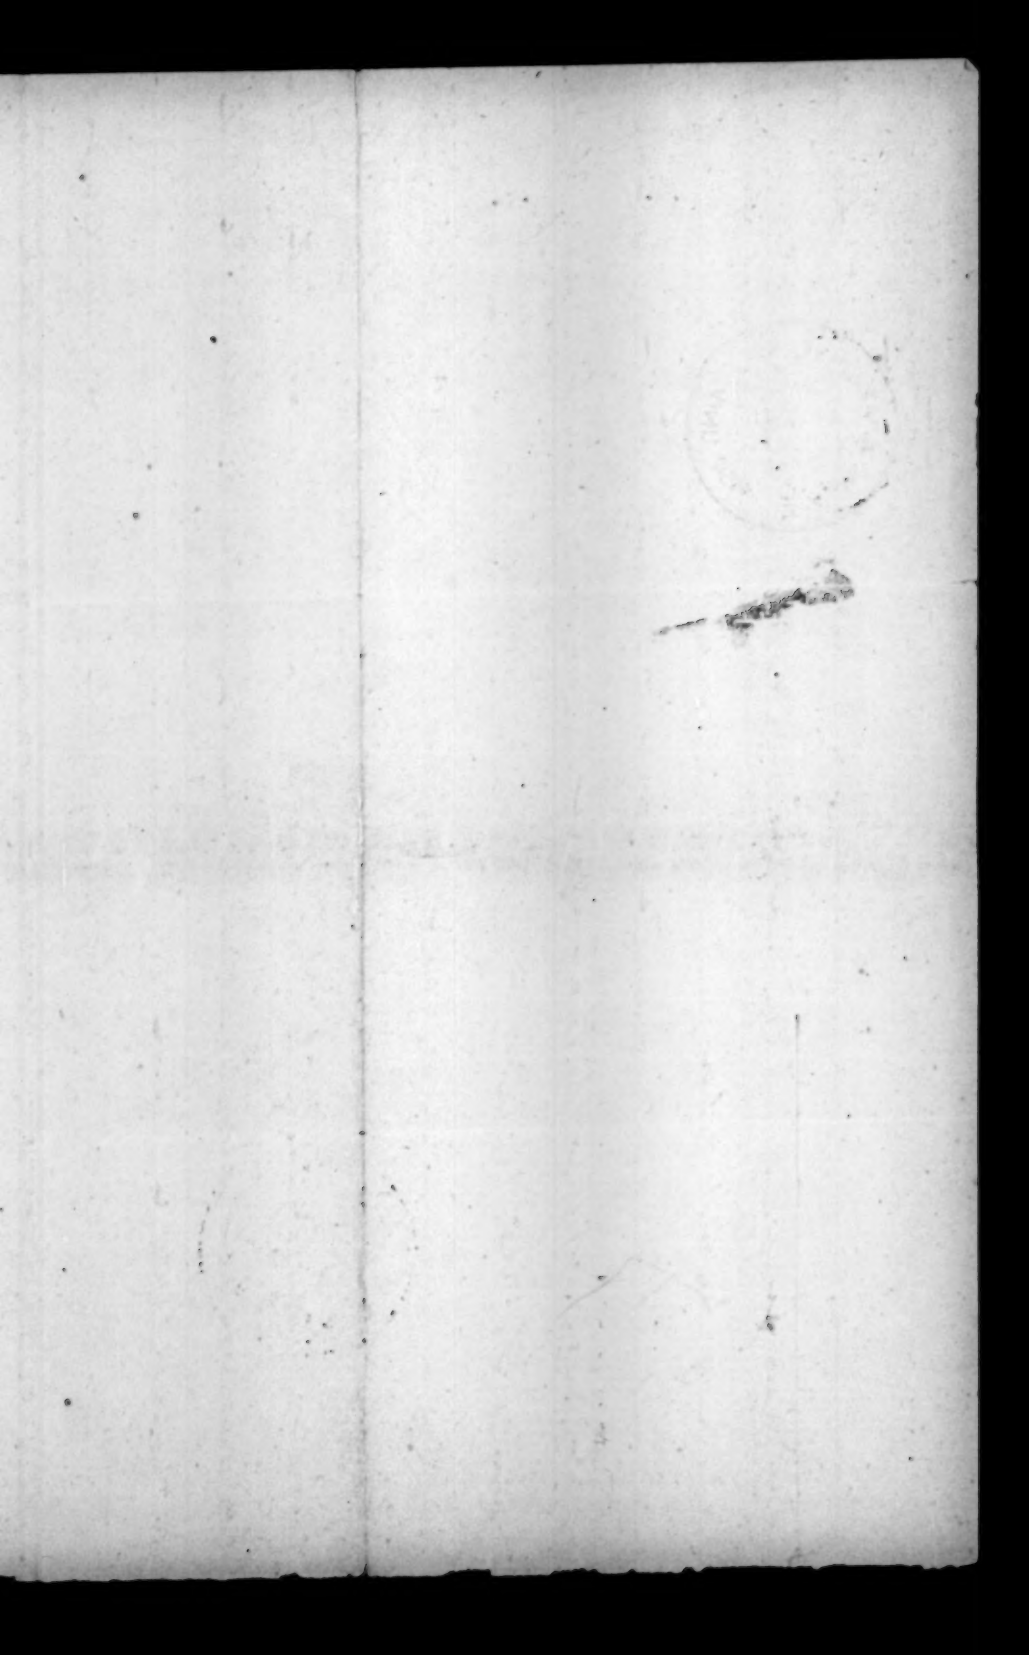

Brother Wilson will hand you \$35 being part of my Missionary collections for the year, and in addition to this I have paid our native brother Harris the sum of \$25 as assistant Missionary, say for a half years salary; will you kindly allow this? as his salary from the A. M. A. has been discontinued.

Bro Harris has been with us about eleven years and he is now my right hand man, ever ready to take part in every good work.

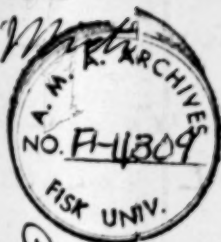

Our brother Venable is at Chesterfield and at work again, I trust he may be able to forward his report this year.

I am My Dear Brother
Yours ever truly

White Pigeon Mich.
Aug 12th 1874

Dear Bro. Whipple

I shall leave
this place on my way to
New York early next week
and I would like you
to send my letters until
otherwise ordered to the
care of Prof. G. W. Allen. ~~Clinton~~
Ohio.

As I have several friends
whom I wish to visit on
the way I shall probably
not reach New York until
the first or second week in
October

Will you please ascertain for
me at what dates in October
the steamer sails for Jamaica
& think the Atlas line is the
only line touching at
Kingston now.

I am glad to say that
I am feeling very much
stronger and better. I shall
be glad to get back to
my field of labor for I
cannot be happier anywhere
than when engaged in my
work there.

With my kindest Christian regards

I am

Very sincerely yours

L. B. Wilson

School Inspectors' Office
Kingston, 12. Aug. 1874

Dear Brother,

In reply to your enquiry
in relation to the Schools of your
Mission as to the positions taken
under the government inspection,
I have only time to say in a
general way, that Chesterfield
and Brainerd are doing good
work and have passed second
class this year. Manning, Hill
and August town are nearly,
and promise to be quite, equal
to the former; while Eliot is in
a prosperous condition so far
as school work is concerned.
Richmond wants vigour - the pupils

J. J. Wood.

School Inspector.

are ^{Kingston Jamaica} ~~slow~~ have had

8/12/74

favourable accounts of
Brandon Hill, which, together
with Cumberwell, Baxter
Mountain, and Providence
I shall visit soon.

Your teachers generally
are earnest Christians.

As such I wish they were
better sustained.

The school rooms are
rather crowded, which shows
that the teachers are esteemed.

I am dear Bro.

Yours faithfully

J. J. Wood

Rev. John Thompson

Rev. C. B. Fanning -

Chesterfield Aug. 10. 1874

Jamaica W. I.

8/13/74

Rev. Geo Whipple

My dear Brother

Observing where I date
from you will be glad I know
to see that I am once more in
my old field of labor. You prob-
ably heard from Bro. Wilson that
when he left here for the States
I had come to St Ann's for a
change. the climate of that Parish
having the reputation of being about
the most salubrious in the Island.
After remaining there for nearly
four months I returned to Kingston
& after resting there for a few days
I came up here the last week in
July. Although I do not
feel any decided change for the
better in my health yet my visit

to St Ann's has not been a l.

together without benefit I trust.

I cannot of course expect to ever
to regain my former strength. con-
sidering my time of life, the nature
of my complaint & its long standing
still I am so far recovered from
my last severe illness as to be able
since my return to attend to some
of my pastoral duties to preach on
the two Sabbaths I have been here
to attend the weekly meetings of
the church for prayer & to see & con-
verse with one & another of my people
as I have opportunity but still in
great weakness & weariness & very
imperfectly of course.

For a long time, whenever I would
think about writing you, I have thought
much about ^{the same} as one of the Deacons of
the Ch. here expressed himself to me,
"Minister," he said, "I have been want-
ing to write you a letter, but the way
things stand in the church I had no
mind to it". So it has been with me

& this together with my frequent ailments & feebleness will account for my long silence. My last letter to you was written last October.

During the fall of last year & the first quarter of the present, the accounts I received of the state of things at this station were any thing but cheering. such as the declension of some of the members of the Ch., the coldness & neglect of others & of the disheartening effect these had on the more spiritual. As might be expected under these circumstances, the sad condition of most of our young people, then again long continued rainy weather frequently interfered with meetings (which indeed you would not wonder at if you witnessed our rains in these mountain regions, saw the condition of our roads ~~at such times~~, & knew how dangerous our rivers are at such times) & altogether the accounts which came to me of the people of my charge made me feel sad indeed. as though my labors among them these many years had been almost in vain.

About three or four months ago however W^m McLaughlin the Teacher. who also conducts services & preaches on the Sabbath & otherwise interests himself in the spiritual welfare of the people. began to write me more cheerfully. that meetings were being better attended. that when the brethren & sisters came together for prayer &c they seemed to be more earnest speaking good things & exhorting one another to good works, & better still that many were beginning to do things that for some time had been left undone. W^m B. whom I left in Ringston when I went to St Ann & who went up to Chesterfield soon after. she too in her letters to me wrote quite encouragingly. Her presence among the people seemed to have a good influence. it reassured them about myself & our continued interest in them. And now much more so, seeing me in their midst again. They seem truly glad to have me among them once more. The brethren

(2)

Sisters seem as though they
could never cease to give thanks to
God for their prayers for me for
His kind & what seems to all, His
wonderful dealings with me. This
of course is gratifying to me but
not only so I am comforted & thank-
ful to our heavenly Father for the
evidences I have had since I came
here of the warm heartedness & sted-
fastness ^{of a goodly number} towards the Lord Jesus
& His gospel. On the other hand I
have to see & hear things of many
which cause me no little grief &
depression of spirits. But we
will hope & wait on the Lord
for better things to come. Other
providences are helping to make
the people old & young ~~more~~ sus-
ceptible of good impressions.
There is much sickness in the
district & two deaths have occur-
red this week. one of an elder

brother in the church who
we have reason to hope has
gone to his rest above. the
other of an ungodly young man.
But what affects us more is
the serious illness of the chief
deacon & main pillar in the
Church. he is just now laid
aside with a malady from
which I fear he will not re-
cover. May the good Lord be
gracious unto us & spare our
brother to us. Amen

You will observe in the
return of Schools sent here
with what I have given a
new school - "Baxter Mountain"

I report it because it is geographi-
cally more connected with Chestfield
than with any other Station. But
Bro. Thompson has had all the
work to do in establishing. he
visited the district, met the people.

heard their complaint, saw
the destitution of ~~the people~~ of any
thing in the way of educating
their children, reported it to Govern-
ment, & obtained a "Grant in Aid"
to establish a school and now
it is in operation & was ^{open} four
weeks before the August holidays.
For the present the school is kept
in an old make-shift building
till a new house & Teacher's
dwelling can be put ~~up~~ by the people's
labors & the grant given by Govt.

Thus Rev. D. has to go about
visiting one Station & another to
supply the lack of service on the
part of Rev. Wilson & himself.
Were it not, as he was saying
the other day, that he had such an
^{efficient} faithful assistant Fellow-la-
borer as Rev. Harris the Teacher
of Brainerd his principal Station
& a good trustworthy brother
in W. Kelly the Teacher at Man-
ning's Hill his other Station he

could hardly do this.

So the Lord makes provision
for us in our great need. But
His labors of course are arduous
May his life & health be precious
in the sight of God that he may
preserve him to the mission
to do the work so needed to be
done.

And now dear Brother I
am compelled to stop. I would
like to write you more about
our schools & Teachers but I am
over weary.

May the Good
Lord guide sustain & comfort
you in all the many responsibil-
ities & duties He has laid upon
you in prosecuting the good
work among the Freedmen
South -

Ever Yours affecly,

W. B. Jennings

Sept. 14th 1874

Dear Bro. Whiting,

I have been away from home a few weeks and was not here when your letter of Aug. 11th arrived.

The \$100. of which you speak was collected last year before the first of Sept. and is entered in the acct. of either of the quarters ending Sept. 1st or Dec. 1st or at least should have been. I have not the acct. of these quarters with me but if I have not given you credit for it then I must do so now. ~~but~~ I am under a strong impression however that I

must have entered it already
in the acct of one or the
other of these quarters.

For case it was entered
then you would not of
course find it in the
same quarter.

Accounts of Collections
must soon come in from
Samaria for this year if
they have not already
come in.

Yours very truly,
D. B. Wilson

Richmond, P.O. St Mary Par
Jamaica West Indies

Sept 33 1894

New Geo. Whipple Cor Sec of the S. M. A.

55. Beade Street New York

Dear Sir.

I have often thought of writing to you and have several times commenced letters but have thrown them aside for there are some things that I would like to say, but do not want to say them in reference to the present state of the mission and its future prospects. I have sometimes thought perhaps it was the wisest to remain silent and let time develop things.

But as I am employed by the S. M. A. it might be my duty to speak of the condition of things. My 31 years of most of observation and experience among this people and their prosperity I am not ignorant of the manner how the work is prospering. The schools ~~and the whole~~ are as good as they have been at any time since I have been here.

They are all under government inspection and all passed at the last inspection. But the churches and mission premises are in a low state. The building at all the mission stations are going to decay and some are most crumbling down. The buildings here are mostly very frail in their structure. Manning's Hill is the only building that is built of stone. Wooden buildings soon decay and most of the material that are used in building the insects soon destroy. Now one man cannot look after all the mission churches or premises so that their may prosperity. We usually judge of spiritual prosperity of a church by the condition of its place of worship. As one pass by and see the chapel, crotched up by three or four sticks, a board hanging by a nail here and glass of the window decayed, gone here and there - and general desolation reigns. The beholder will draw some conclusions -

The Minister of churches here have
much to do if he is a faithful laborer.
There is much labor to be performed
besides preaching on the Sabbath.
A Minister must live among his people
so that their may be that healthful
family influence among the flock who
he is placed as an overseer.

As things are at the present some of our
Mission churches do not see a Minister
for months, and I know of one ^{Calist} that have
not received the communion service for
the past six or eight months.

Mr. Thompson is the only ordained
Minister that is able to go about in the
Mission, and he does not visit that
church often, In fact he has not
had much to do with them since
last December when he went and
told them that the Society in New York
had cut them off, and he would
have nothing more to do with them.
One of the deacons of the church re-
monstrated with Mr. Thompson
and contended that he did not
have that power himself, but they
as a church was under the protection

Miss L. A. Woodcock,
Richmond, Jam. W. I.
9/28/74

of the Society in New York. so the church
sent two delegates to Mr Wilson to know
how matters stood with them at Eliot
and ~~Savichy~~ at home. Bro Wilson told
them that they were not cut off
since that time Mr L and Eliot church
have not been what it should have been.
Mr McLeod that officiates there, on the
Sabbath is not an ordained Minister
The arraignment was that Mr L
was to have the pastoral care of the
church and Mr McLeod as help. and
Mr Thompson was to come to Eliot
once a month. and to administer
the Sacraments, and such Sabbaths
Mr McLeod was to go to Brainard
or what other station Mr Thompson
might appoint him to, March was
the last time that he was at Brainard
See by the last annual report of
the Board. That Mr Thompson reports
that Mr McLeod officiates here at Rich-
mond on the Sabbath, occasionally
I do not see how a man could
send such a thing as Mr L knows
it is not so. Mr McLeod officiates here
one Sabbath one year ago when Mr Holcott
was sick and not able to attend

It is almost a year since there has
 been any services held here and
 since I have been here there
 never were more than 15. or 20. at any
 time on the sabbath, and often has
 been the time only the Wolcott family
 and mine have made the congregation.
 I find the sabbaths long an unprop-
 itable to sit at home sabbath after Sab-
 so I take a ride of seven miles to
 church, when the weather permits.
 As the ~~Board~~ contemplates to make
 some changes in reference to this sys-
 tem the sooner it is effected the better
 it will be for the progress of the fu-
 ture of the churches. But to have
 them remain as they are for
 the present they must of a necessity
 dwindle down. I do think that
 if the stations were manned with
 active earnest working men they might
 be brought up - but as things are they
 never will.

If the S.M.B. would send out
a person to see the condition
of things, and report to the home
board. help to settle things—
My school for the past year was
about the same as the year before
composed of new and raw material
and not but a few children from
any families connected with any
of our mission churches.

Miss J. Wood

} New York
Oct 7th 1874

Dear Bro. Whipple

It is very probable
that our Jamaica Mission will
be under discussion at
our next Annual Meeting
if so the following facts may
be of service.

We have 6 churches with
over 500. members and our
attendance on the Sabbath
is over 1200.

We have 10 schools with an
attendance of about 500 scholars

Nearly all of our teachers
conduct services on the Sabbath
and some of them are much
in a fair way to become
useful preachers

Now to carry on our work
we ask the A. M. A. to support
in the field only 3 ministers.
Can the A. M. A. pay the same
money do more good anywhere
else?

We wish that at this Annual
Meeting the A. M. A. would
decide to stand by us and
assist ~~it~~ it will give us
this moderate assistance

The constant recurrence of
the subject of giving up our
mission can have no other
than a very depressing effect
both upon the missionaries
and upon the churches of our
mission. There never was a
time when our churches and
schools (with one or two exceptions)
were more prosperous than at
the present.

(3)
We have laboured hard to
bring them up to their present
standing and to make them
as nearly self-sustaining as
they are and we shall feel
very much hurt if the Association
does not continue to help us
as long as we need its help.

We have fully examined the
subject of a transfer of our
churches to any other missionary
body and we find that it
is quite impracticable.

We acknowledge that the
A. M. A. has done a great
deal for the Jamaican Mission
but we think that sometimes a
necessity for doing more.

Desiring only what is in
the best interests of the great
missionary work.

I remain your brother in Christ
L. B. Wilson

Rev George Whipple Sec. A. M. A.

My Dear Brother

Your two letters, ^{the} 12 August & 17th September came duly to hand, respectively. The former caused a feeling of gladness on my heart & mind, but the latter brought a dash of sadness over me, which was only temporary, however; as on reflection I saw the fairness & justness of the action taken by the Annual Meeting of 1873. You have "more important work" elsewhere, and it is time that the churches here should be self-sustaining. Relying on divine aid, I will endeavour ^{to meet} the altered circumstances cheerfully.

I will, as you requested, write you fully, and frequently. ~~Altho~~^{Altho} in the absence of Bro Wilson I cannot write about the Mission generally, but only as to the two churches, viz Brainerd & Manning's Hill with four schools under my pastoral care. - We had a full Church meeting here yesterday, mainly for the election of new deacons and to entertain applications for membership, when six persons applied for fellowship with us and one was restored to our communion, and so the Lord's work goes on amongst us and becomes more and more important from day to day. - I availed myself of the opportunity to read your letter

Letter to the Church, when there was a general expression of approval of the step taken; and a very strong expression of gratitude ~~for~~ ^{for} the agency of the A. M. A. I will read the letter to the Church at Manning's Hill on an early day, when I make no doubt but that that Church will express a feeling in unison with the Church here.

From my own reports and other documents I have sent you from time to time, you will have observed that a considerable portion of Mission work have fallen to my share; and, judging from circumstance, I may, at no distant day, be required, in the order of providence, to assume still further responsibilities, therefore taking all things into consideration while I approve of the step taken, yet I feel ~~to~~ ^{to} the fairness of the time intimated, "Six Months" is a "short notice," I think, for work so important, particularly as the work and responsibility may fall heavily upon one man.

Our brother Verming and his aged partner are now growing feeble and ought, in my opinion, to be released from harness. They have both worked long & well, and I seriously hope the A. M. A. will not allow the aged couple to feel the pinch of want at the brink of the river. Some time ago I expressed a wish to
visit

Visit America but providence so ordered it
that I was kept in the field. I was out of health
at that time and should have been glad of
change and rest. I cannot now plead for a
change on the score of health, but I think,
in all fairness I deserve a holiday and I
am seriously thinking of visiting your great
country next year. I believe it is the wish
of the churches here that I should thank the
A. M. A. in person for the great good you
have done for them for many years past.

I do not know when to expect Bro
Wilson back to Jamaica but I should
think in about a month or so. I take it
for granted that he ^{is} aware of the con-
templated action of the committee and that he
will meet you at New York previous to
sailing.

Wishing you, My Dear Brother, the
presence and blessing of our Lord.

I am yours in Him
Jno Thompson

Dec 3

Rev. George Whipple

American Missionary Association

56 Beane Street

New York

My dear Bro.

I had a very pleasant voyage back to Jamaica but since my return we have experienced more unpleasant weather than I ever saw in Jamaica before. I have now been back a month and I have been able to meet the people here at Brandon Hill as well as Scotch and that was the first Scotch I was here of course I am able to write nothing of interest as yet.

I experienced a hurricane

on Sunday Nov. 1st of which
you have doubtless noticed something
already in the papers which
did a great deal of damage
in burning down houses, trees
and whole fields of prairie
and in sinking and driving
ashore quite a number of
vessels. I am afraid the
destruction of prairie fields
may occasion a great deal
of suffering among the poorer
people. I am glad to say that
the mission buildings here are
uninjured notwithstanding one
or two houses were blown down
within sight.

I received your short letter
last week but I trust I shall
shall hear from you again
soon and in full in reference
to the action of the Executive
Committee as affecting and under
everything you will see

and encouragement for I can
assure you the missionaries and
our churches have been very
much depressed by the last
communication from the Association.
We are having it hard enough
at best and although our
main trust is in God I hope
we shall find that we are
not trusting to the Association
in vain.

Will you please forward the
enclosed letter to Messrs. A. S. Barnes & Co
and Kellogg?

Yours very sincerely

D. B. Wilson

Wrote July 24 / 75

Sent Harper's about July 29 / 75

Dear Bro. Whiting

I asked you
when I was in New York
to order Harpers Weekly and
the "Annals of a Quiet-
Neighborhood" sent to me
at the above P.O. from
Harper & Bros. but as I have
not yet seen them I am
afraid the order has been
overlooked. Will you
please order them sent
me now? The Harpers Weekly
from the present time

I also wrote you a
few weeks ago and sent
you my Hotel bill in New York

and my freight-bill an
my goods to this place
which I paid and which
Bro. Whipple said should
be refunded to me.

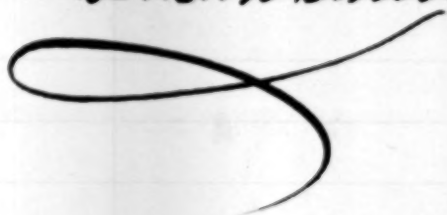

The amount of the Hotel
bill ^{was} \$49.30. and of the Freight-
bill was \$13.61 making
a total of \$62.87 I asked

Don't *buy* *me* *send* *me* *a* *good*
this - and of this you
would send me a
mattress 4 ft. by 6 ft. and
send me ~~the~~ a check
for the balance.

I have not heard from
you since writing so I
conclude you may not
have received my letter.
Will you please attend
to the matter for me now
and have the mattress
sent to me at Middlebury
on the Lake Shore and Mich.

Santhum Ry. and the
check to me by mail
as per the heading of
this letter and oblige

Yours very truly
L. B. Wilson

TERMS:

Harper's Magazine, One Year.....	\$4 00
Harper's Weekly, One Year.....	4 00
Harper's Bazar, One Year.....	4 00

\$4 00 includes prepayment of U. S. postage by the publishers.

Subscription to Harper's Magazine, Weekly, and Bazar, to one address for one year, \$10 00; or two of Harper's Periodicals, to one address for one year, \$7 00: postage free.

*An Extra Copy of either the Magazine, Weekly, or Bazar will be supplied gratis for every Club of **Five Subscribers** at \$4 each, in one remittance; or, Six Copies for \$20 00, without Extra Copy, postage free.*

In sending a subscription, the name of the subscriber, and full address, including County and State, should be distinctly written.

The Volumes of the Magazine commence with the Numbers for June and December of each year. Subscriptions may commence with any Number. When no time is specified, it will be understood that the subscriber wishes to begin with the first Number of the current Volume, and back Numbers will be sent accordingly.

The Volumes of the Weekly and Bazar commence with the year. When no time is mentioned, it will be understood that the subscriber wishes to commence with the Number next after the receipt of his order.

In remitting by Mail, a POST-OFFICE ORDER or a DRAFT upon New York, payable to the order of Harper & Brothers, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender.

Bound Volumes of the Magazine, each Volume containing the Numbers for six months, will be furnished for \$3 00 each, and sent by mail, postage free. Forty-nine Volumes are now ready.

Eighteen Bound Volumes of the Weekly are now ready, each Volume containing the Numbers for one year, and will be furnished for \$7 00 each, freight prepaid,

Volumes of Harper's Bazar, elegantly bound in green morocco cloth, gilt, will be sent by express, freight prepaid, for \$7 00 each. Seven Volumes are now ready.

Sept 8th 1875

Dear Bro. Whiting

Will you please send

me a check for an amount equal
to One Hundred and Eighty seven
dollars and fifty cents Gold
(\$187.50) that being the amount
due me on my salary for the
three months ending Sept. 1st?

I also send enclosed with this
two orders as you gave me
by Ben. John Thompson one for
Two Hundred and Seventeen dollars
gold (\$217.00) payable last June
and one for One Hundred and
fifteen dollars gold (\$115.00) payable
on the first of September

As I am not in imme-
diate want of this money

in currency

if you will give me some
kind of a paper for it that
is all I require for the present
Of course for the order due
in June I think I should have
the value of gold at that time
which was 1.17 and ^{per} the one due
in Sept what gold is now.

Yours very truly,

Samuel B. Wilson

W. E. Whiting Esq

St. Regis St. New York

Dear Sir -

Will you please
send me a check for the
amount you have credited
to me in your ledger. There
was Two hundred and thirty four
dollars and fifty five cents (\$234.55)
credited to me last June and
Three hundred and ninety nine
dollars and thirty one cents (\$399.31)
in Sept. both amounts being
upon interest.

I am not satisfied with
your settlement of the matter
as I think I ought to have had

the value of gold in June and
monthly with interest from June
as the order from Mr. Thompson
of \$217. due at that time. But
as I am in immediate need
of the money I am compelled
to cash for it as you have
credited it and trust that
either Bro. Whipple or the Ex. Com.
will see my affairs with the
A. M. A. more satisfactorily
adjusted.

With kind regards

Yours very truly

D. B. Wilson

S. A. Woodward

Wellsville, Allegany Co. N.Y.
Dec. 15th 1873

Rev. Geo. Whipple

56. Beade Street New York

Dear Sir

I arrived at home
safe that same evening and found
friends waiting for me at the depot
I endured the journey very
well and do not feel any worse
I am consulting with one of the
first physicians of the place
He expresses some doubt in refer-
ence to it being a cancer.

I am to meet a counsel of Drs
on Wed of this week. It is of the
Dr. opinion thus far not to disturb
it as long as I am not suffering
from it. There is a cancer dr. not
far from here where I can have

it removed without a knife
if the Dr- pronounces it one

I am getting acclimated to the
cold by degrees. I endure it as
well as I expected - I think I
met the coldest weather when
I landed in New York

If I keep in I do not feel it much
as my friends have warm houses
to keep me warm

Please say to Mr. Whiting that I
have made enquiries for that
medicine. "Hoff's extract of Malt" and
it is not to be had in any of the
drug stores in the place

If he would get me half a doz
bottles and send them on to
me I would be much obliged.

Addressed by me, but to the care
of E. F. Woodcock, Wellsville, Allegany
Co., N. Y. Express Station N. Y. & Erie
R.R. Care Jan. Mrs. P. Miss, Dr.
Arr.

I have not heard any thing
from Jamaica yet.

I hope that the time is not
far distant when, the Mission
churches, will be placed on
more permanant foundation
than they are now. Brainard will
go over to some other body as they
are neglected by the one that is
at the head. and that is one rea-
son why the people are dissat-
isfied and are murmuring on
that account. I must say that
Mr Thompson does not spend
much time with the churches
but is frequent off for weeks away
to look after his own affairs and
family which live full 40 miles
from any of the Mission ch
The Mission Station are going to
decay, and if the buildings
are not looked after the people

Wm L. A. Woodcock,
Wellsville, N. Y.
12-13-75

people will soon be without
a place of worship.

The people cannot and will not
look after their building, with-
out some one to push them
on. it must be line upon line
and that continually.

But the buildings left to the people
will soon tumble down that
is a fact which all Mission bodies
have to meet, and the prosperity
of a church is only kept up
where the Minister takes hold
of and urg the people on to their
duty in this respect.

And when Mr Thompson is not
able to labor the churches will
all run out if left to themselves.
Mr. Thompson & Vennings says
that they will not labor un-
der another body - and that is
the great difficulty in the question
of transfer. - Yours, L. A. Woodcock

Don't give more hope - will interfere - non

Apr 28. 1876

Rev. Mr. E. Struby

My Dear Sir

I desire hereby to renew an application made last year for ^{school} work in the Southern States. Should any position offer I should be glad to be advised of it at an early date. Having taught for two years in Chattanooga I am not unknown to your Society.

Another matter also prompts me to write you at this time.

It may not be out of place for me to call your attention to the deplorable state of the "American Mission" in this

Island. His dying condition certainly demands some prompt action. To

thinking even here it would seem wiser to drop at once all care of the churches and stations here than to continue them in their present condition and system of management.

It seems a pity that one of your officers could not come here and visit these stations where so much labor and money have been expended and for which so many prayers have been offered and lives devoted.

My father's long connection
with the mission and
my consequent interest
in it must plead my
excuse for referring to
its present condition which
you can hardly realize

I am dear Sir
Yours faithfully
Henry A. Holcott

C/o Messrs Oughton & Gardin

W. E. Whiting Esquire
Dear Brother

I have this day
drawn on you, as assist
Treasurer of the American
Missionary Association, for the
sum of Three hundred and
Eighty dollars, Gold, kindly
honor the same and oblige
Yours very truly
Jno Thompson

which I trust you may find correct

You will observe that I have only charged at the rate of \$62.50 per quarter extra, for most travelling and other expenses, having charge of the whole Mission. This amount does not at all cover my extra expenses but I wish not to take more.

There are three items mentioned in your account under date April & May 1875

Freight \$7.60

Miss Woodcock's papers 11.98

+ Drugs &c 39.00 which I cannot deal with. Miss Woodcock said that she paid Mr Wilton before he left the island, as she doubtless told you when she returned home.

I thank you for your a/c to January. - in looking over your two accounts, I observe that the drafts have been rather heavy, incident partly on the return of two of your Missionaries. But in future I trust my drafts on your Treasury may be moderate.

When the school Inspections are over I hope to start for New York, say by 1st Feb^r in August.

I drew a bill yesterday for the sum of \$380-Gold, which is included in the a/c above. Kindly honour same, and oblige yours very truly

Mr Hubbard Esq

Dear Brother

I have drawn on you
this week for \$162.50 at 15 days, being
the amount of Mr Vennings's quarterly
allowance according to Bro Stieby's in-
structions. but I have drawn
nothing for the mission, as you
said in your last that I was not
"Authorized" to do so.

You will be glad to
read it, as I am to write it.
That we enjoy much prosperity
in the three small churches
under my pastoral care and
I am sure the change has been
for good, the contributions given
towards my support are small,
but given willingly, and the cause
is growing and improving gradually.
What I want is a little im-
mediate help. Will the A.M.A. just
give

Give me a small amount, say
one quarter's Salary as a parting
gift?

Please address Goletha Spring
Post office, and put a 5 cents
stamp on your letter; because
I had to pay a fine of 15 cents on
your last letter for short postage.
I use the word "parting"
in a pecuniary sense, we need
not part company.

Kindly submit this note
to Mrs Stieby with my love, and
let me ^{have} a final reply, please.

My kindest love to all at the
Rooms

Kingston (V.I.) July 14

Dear Sir,

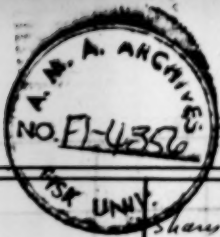

In 1849 Jacob Stearn
and a colored man - with wife & one
child - sailed from N. York for
Kingston Jamaica with Rev.
Loring Thompson a missionary of your
Board, whose field was near it.

I have not heard from Jacob for
about 10 years, & think he is
dead, but as he had a wife & several
children whom last heard from, probably
some of them survive.

Can you not give me the address
of the missionary at that station
through whom I can learn something
of Jacob & his family.

Yours truly
E. P. Woodbridge

My Dear

My Dear Sister

Dear Sister Lovelace

Mr. Douglass
writes me to give you a caution about
our letters sent from the warm weather
as they seal themselves & make
trouble if your satchel should be
inspected. I told him you could put
them up by taping the whole pack
together with their last fold left open
instead of turned down into place.
I had no time to add anything to sister's
letters.

I wrote to Mrs. Whipple last
night asking her to send me any
size saddle. That I could do with
~~and some furniture & a horse by~~
~~using other people's but a saddle~~
I must & wish they would send
by the first opportunity. Would
you tell her about it. That I have
heard Mrs. Wolcott but cannot
rely on it any longer. Good bye
God bless & keep you & bring
you back again yours aff. sister
J. E. Trask.

Education.

1. What is education.
2. What is the use of education.
3. When must one be educated.

1. Education is acquired learning of some degree; it is when the mind is stored & debated with knowledge to such an extent that one may be said to be educated in all his manners, habits, & deportment.

2. Education is useful. It is useful in teaching others; for the more education a teacher has the better will he be able to instruct others.

It opens to men the store houses of nature, helps them to pry & search into things hidden from the ignorant & ancient. Education ^{secures} ~~restores~~ to us our living; guides & brightens ^{our} intellect, fits us for the different relations & responsibilities of life. Education helps us to look with disgust upon every thing that is low & groveling & with admiration upon every thing that is good & pleasant. It also sweetens & polishes the conversation of the educated & gives tone to their walks, attitudes & gestures. It is

the chief thing which distinguishes the barbarous
from ^{the} civilized, the ignorant from the learned.
Education is useful also in godliness for the
bible says it is ~~not~~ for a person to be without
knowledge is ^{not} good; so one with it will
be ^{able} to please God ^{better} & carry on his Kingdom in
this world. Education or knowledge will elevate
a people or nation in every respect; it makes
them demand their rights legally & respectfully.
It is truly the true alchemy that turns every ^{thing}
it touches into gold; it is perhaps ^{the} mainstaple
or of virtue & architect of science; how useful
then is education. But what will become
of our beloved Island if we are not all
educated; but we pray ^{to} God for the outpouring
of his holy spirit upon this land.

3. (Then must one be educated) One must
begin to ^{be} educated in childhood; as soon as
a child is able to think it must be taught to
be obedient & truthful; by this way the mind
is ^{being} prepared or educated for book knowledge.

Written by John Phillips
examined to assist Mr. Vennings.

lien of that granted last year and which
I did not use, remaining a year longer
in the mission. I supposed therefore it
had the general effect of furloughs, namely
to continue the pecuniary benefits of a
connection during a certain term while
dispensing with its labor. Accordingly I have
presented the bill according to the claim
that would have accrued in furloughs during
the same time, which would entitle me
to the sums accruing Sept 1st & Dec 1st with
liberty to change my relations during the
last quarter. In that I have supposed that
my connection with the Society stood on
just the same footing during this permitted
term of recreation as during the same
time of labor, and have interpreted that
footing according to the general practice
of the Mission, supposing the extension of
the last quarter's salary over the whole of the
quarter during which the connection was
severed & hence respect to the smallness of our
salaries at best.

a. m. a. W. C. C. Starbuck

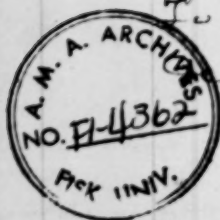

Dr.

To Salary for quarter beginning June 1
due June 1 \$ 109.50

To Salary for quarter beginning
Sept 1. due Sept 1 - - - - - \$ 109.50

To Salary for quarter beginning
Dec 1. due Dec 1 - - - - - 109.50

Total \$ 328.50

W. C. C. Starbuck

I have supposed the effect of the six months' leave was to grant me two quarters' salary more than I should have been entitled to had I come home without leave. According to the general practice in our Missions a ^{quarter's} salary became due at the beginning of the quarter. I supposed therefore that coming home in June, the six months' leave entitled me to the two quarters' salary succeeding.

I supposed moreover that this particular leave ~~was~~ was granted me in

Mr. Wall's salary seems to have
been paid in Jamaica, March 1/60
The same is true of Mr. Hoppin.

They arrived in New York
May 17th bringing recommen-
dation from the Mission that
the Assocⁿ. should allow Mr
Wall one year salary, and
Mr. Hoppin six months.

The Com. (Rec. Book p 161) voted
to Mr. Wall, for six months, and Mr. Hoppin
for three months, each "from the time they
seriously closed their labors at the Mission"

In the settlement with them
the account stood thus,

Mr. Wall, allowance of salary, 280.00

Left to go of p^r in Jan - 70.00 \$ 210.00

Mr. Hoppin.

One quarters salary \$103.50

Left p^r in allowance 52.50 \$ 52.50.

Nov. 14, 1860. The Ex. Com. had
before them the recommendation
of the Jern. Mission, as follows.

Res. that the Mission recommend
that Bro. Startuck have leave of absence
for six months, to visit home, and
that in view of the short time proposed,
his ocean expenses one way should be
met by the Association. (Approved)

Her mother reports.

Mrs Mary Dean
Mission Institute
Near Quincy
Illinois

My Mother's address
You will not sent any money
to her till February

- 1 Women whose hearts can feel
Who wish your country's weal
Come use your pens of steel
To plead her rights
Let freedom be your theme
Poured in one mighty stream
Till liberty shall beam
Where slavery blights
 - 2 Like England's daughters brave
Raise your land to save
From dark oppressive grave
Ere she expires.
Then raise your voices high
Nor let proud freedom die
While flash in woman's eye
Sweet freedom's fire
 - 3 A mighty phalanx form
Nor fear to front the storm
Of southern weapons warm
Of all stained with blood
Three million bondman's wail
Is heard on every gale
The oppressors ranks assail
And break his rod
 - 4 'Tis Heaven's high decree
That all men shall be free
That glorious thing will be
Not distant now
If woman but begin
To speak against the sin
And send petitions in
To Congress' bar.
 - 5 But should her voice be hushed
Should woman's pen be crushed
Because her pale cheek blushed
At slavery's stain
Then let the stones ring out
And earth prolong the shout
With all the throng devout
Let freedom reign.
- M

Richmond Mectalf Parish
Jamaica, N. Y.

The Richmond Industrial School was established in Feb. 1865 by the American Missionaries, with the sanction and aid of the American Missionary Association 61. John Street N. York. It was designed to meet a growing want, not only in the educational department of our mission but also on behalf of education generally in the island - to give to the common people an opportunity to obtain by their own industry the rudiments of a thorough christian education. While it is emphatically a manual labor institution, it is such with distinct reference to the highest intellectual & moral culture practicable with the condition of the class for which it was designed.

It does not propose to fit men & women for the mere instruments of labor, but to endeavor to gain a higher medium of civilization, by raising the common laborer to the rank & condition of intelligent and useful citizens. - To create, as Englishmen would say, a large middle class, the nerve and muscle of social wealth. In striving to attain our object thus far we have been hindered greatly by lack of suitable accommodations and of means by which to secure them. The number benefitted has of course been proportionally small. The number of scholars has ranged from 20 to 50 - It now

stands at 35 mostly members of the mission family -
 a less number from other families ~~are~~ in this school now
 than at some former periods. All the branches of a
 good common school are pursued, with Physiology
 & Latin in which latter a class of seven is making
 commendable progress. As a basis of operation
 an abandoned sugar property was purchased with
 a twofold object - to furnish land for the institu-
 tion, and to give the people an opportunity to
 provide themselves freeholds. One hundred acres of
 the most valuable part of the property is held by
 Deed of Trust for the permanent use of the institution
 an equal amount, or more, is in reserve for future
 use if desirable. Some 200 acres have been allotted
 to small settlers, leaving now for sale in lots to suit
 purchasers over 600 acres. The Superintendent &
 present head master of the school is the legal
 proprietor of the unsold portion of the estate, and
 is pledged to dispose of it with strict regard to the
 interests of the school, and with the advice &
 sanction of its Trustees. The Estate was purchased
 mainly by contributions loaned by friends to the enterprise
 who hold or have held for the same, scrip, or bonds
 redeemable by the estate. Some of these bonds
 have been redeemed. A considerable number
 have been canceled in whole or in part by
 the holders generously relinquishing their claims
 in contributions to create a building fund

We have thus been relieved in part from the embarrassment consequent on a lack of sufficient or suitable buildings, having in addition to school room & boys dormitory a plain substantial dwelling house one story of wood, iron roofed, with spacious verandas, all upon a basement story of stone 58X40 feet.

In addition to other contributions we have received important aid from Government grants for educational purposes. Towards the erection of the house just finished the American Missionary Association has furnished the help of a Mission Carpenter. He is still on the ground and will be prepared to aid further in construction of buildings, if the necessary means in material &c. can be furnished. The old still house transformed into a school room & dormitory, requires a new roof immediately. We propose to reconstruct the old one, and by adding a few feet to the height of the walls, and inserting timbers & flooring, provide a second story with rooms for students & for other purposes, making a flattish roof & covering with felt & cement. It is also our earnest desire to construct a ^{wholly new but small} building for students' rooms during the present year, looking forward to the erection of one of more academic style & proportion whenever our ability will allow. For these immediate necessities we require above what is now

ZA

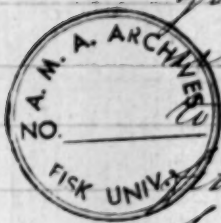

at our command not less than two ^{thous} and dollars.

We shall build as fast as we are able, but dare not go in debt. Our earnest desire is, and I trust our

unremitting efforts will be, to work ^{up} our institution to something worthy of the end proposed - a

fitting model of its kind. For this we must make known our object and obtain the cooperation of our friends. Let this be our apology for calling attention to ourselves. We are the more solicitous to gain the ear of individual friends, since the present contest with American slaveholders has opened so wide a field and demands so largely the funds of the A. M. A. that we feel indisposed to press our claims on the Association as we otherwise might.

Besides, our special work demands an increased building fund which is less within the objects of the A. M. A. than the support of living missionaries for whom there now comes so great a demand. \$10,000 would be a low estimate for buildings to put the institution in good working order & make its advantages inviting to those who need them. But we propose to approach this estimate by degrees, and as urgent pressure from without requires. Such pressure is now upon us for \$2,000 to meet our immediate building necessities. More children & youth are asking admission than we have suitable rooms to accommodate. We regret the necessity for turning away any. With this brief statement we

Commend our enterprize to your generous
consideration and to Him whose care is over
all.

On behalf of the Committee
Seth T. Wolcott { Chairman
Superintendent
of School

Kingston. 42 Maiden Lane

Rev. G. Strieby

Dear Brother

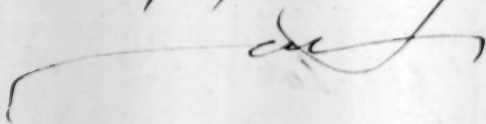

This will be handed to you by the Rev. James Kedzie who has been laboring for the last ten months at Chesterfield, my old field of labor. in pastoral charge of the Church there. He now weeks work in some part of the Lord's vineyard in the W. States. here or there as God in His Providence may direct. From occasional interviews I have

had with M^r H. & from
all that I have heard of
his labors among the people
at Chesterfield, I have good
reason to believe that he is
a faithful & devoted Minis-
ter of the Gospel of Christ.

I remain Dear Brother

Yours faithfully

C. P. Banning

Report of Mannings Hill School.

Our School was opened in May 1870, and has always passed favourably at each Government Inspection

The number of children at present is

Boys	57
Girls	36
Total	93

Average Attendance

73

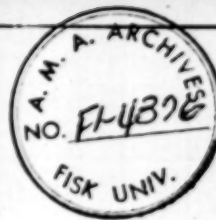

Fees collected since January 1st to March 31st £ 5..4..0

The School was Inspected on the 10th of March & I have reason to hope it passed "Second Class".

Our Sabbath School numbers 95 and I am glad to say that we enjoy much spiritual prosperity and that I am happy in my work as Teacher of the Day School & Superintendant of the Sab. School.

John L. Kelly

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and faint vertical lines, possibly from the binding or scanning process. There are no markings, text, or illustrations on the page.

Sort of goods to be purchased
for the Jamaica Mission

1 doz. sets, or 36 cog wheels for
saw-mills

1 Strythe & Sneath, trim^d - complete, ^[a good article]

1 pr. trace chains - 1 Strythe Stone

1 Dr. Hatter chains

2 doz. Simmons' best axes - handled

Thou sent Hides are just the sort

1 doz. Ax helms

1 Small coil $\frac{1}{2}$ inch rope

$\frac{1}{2}$ doz. bed cords -

2 Sides Harness leather suitable
for bridles &c. - uncolored

1 doz. papers No 12 sacks -

1 Set Girmur Chisels - if not too dear
or too many - none smaller than $\frac{1}{4}$ inch
nor larger than $2\frac{3}{4}$ inches are particu-
larly demanded - no objections to a few
others if economically included in set.

3 Socket, mortise Chisels $\frac{1}{2}$ - $\frac{3}{4}$ - $\frac{1}{2}$ inches

1 Wooden brace, brass trim^d - without bits
of good substantial article

Brace Augers, or Auger bits
from $\frac{1}{4}$ to 1 inch in size - or in set
if most economically purchased thus

2 common Augers $\frac{3}{4}$ & $\frac{4}{9}$ inch

1 Hand saw - fine -

2 Tenon Saws. Brass back - one fine, ^{one coarse}

1 Set Bench Planes - The jack or fore plane

Short jointer & smooth plane

1 Sheving hatchet - rather light -

2 Nail Hammers. Cast steel - one
heavy & one light - firm claws &
well handled for nail drawing -

6 - 25 lbs. Boyes Stearine Candles

The Candles are supposed to be from
15 to 18 cts per lb. - If more than 20 cts
better not send them.

The Case of Reubens sent for by Dr
B. has not appeared - The Capt. of the
Frigate of the Forest said Mr Belden had
sent him a case to him to take but
he could not take it - He thought it was
given to the John Clark - How is this?
We shall want them -

Books &c

200 Webster's Elementary Spelling-books

100 McGuffey's First Readers

75 " 2^d "

3 Doz. " 3^d "

1 Keam South Sea of Foolscap ^{white} paper

1 " Commercial Note "

2 " White Letter "

We are in immediate want of the books. Our (Way sent for books some time since - We fear these were put upon the Jr. Clark & Co. If not they may be included in the above list. We do not at present need all the above in addition to them.

Seth J. Wolcott

Brainerd Station, Jamaica

This station was established in 1838 by the Rev. J. O. Beardslee by the purchase, and sale to the emancipated people, in small parcels, of a coffee ~~plantation~~ ^{plantation} ~~and~~ reserving the coffee house and a few acres of land for a parsonage.

About the same time the agent of the ^{Mico} ~~James~~ Charity purchased an adjoining property and sold it out in a similar manner, reserving the overseer's dwelling for a school which was established and kept in operation by that fund until 1841 or 1842 when the Brainerd Congregation and minister purchased it at a cost of ~~£~~ six hundred dollars and connected the two sites and buildings into one station containing 30 acres of land which is devoted to the use of the resident minister and teacher.

The site of this station is a very pleasant one and commands a wide and delightful prospect. The sea is in plain view at the North about 15 miles distant and 1500 ft. below. This station is about 25 miles from ^{and seaport of the island} Kingston, the principal city.

The station is in the midst of a population of free holders of the emancipated people. ~~Our~~ Our congregation is composed of more than four hundred of this class together with two or three white families and some browns.

Brainerd Chapel

This place of worship was erected by the minister and people of the station in 1848 ^{and} ~~it~~ was dedicated at Christmas of the same year. A part of the means were raised, the site ^{prepared} ~~purchased~~, a part of the lumber and timber procured and

(continued on p. 2)

[Faint, mostly illegible handwritten text covering the majority of the page. The text appears to be a letter or a report, with some words like 'I have', 'the', 'and', 'of' visible.]

foundations laid during the administration of Mr. Beardslee the former minister. The expense of the building was met by the congregation except about ~~two~~ four hundred dollars received from the American Missionary Association. The whole expense of the building in its present condition, temporarily seated and without ceiling, was \$3000 dollars. The roof is corrugated, galvanized tinned iron. The building will seat comfortably six hundred without a gallery which may be erected at one end to accommodate the choir.

Minister's Dwelling & High School room.

The upper part of this building was erected and used in time of slavery for a plantation coffee store. It was erected upon stone pillars ten feet high and the under part was occupied by machinery for the manufacture of coffee.

~~The property including the building was purchased from~~
~~Indians.~~ The upper ^{part} ~~was~~ was repaired for the minister's dwelling and the under part for a place of worship. Since the erection of the new chapel the basement has been in process of thorough fitting up for the High School. A severe shock of an earthquake which occurred on the 20th of June 1848 nearly shook the house from the pillars and made it for a time untenable and also made it necessary that a strong stone wall should be put underneath which now makes it a strong substantial building.

Mrs. Engstrom

Recd. by Whipple

My dear friend

Yesterday I quite forgot to hand you Miss Greats gold watch, which I now send per bearer. Miss I wished me to say to you that if a watch-maker in whom you had confidence considered the watch worth repairing she would like it put in order. If not - you are to retain the watch till you hear further from her on the subject -

The commissions which Paper would be obliged if you could execute for him are as follows
10 Galleries for large School Globes
4 round globe shades to fit galleries
Shades ordered some time ago -
These are to be charged to Paper.
My husband would also be obliged

If you could purchase and forward in your next parcel to Mr. W. L. Lott.

Chas. S. Woulfe } \$ 2-50
J. L. Lott } 1-50
H. L. Lott } 4

122 Nassau Street.

I enclose the money for these that you may not open an extra account.

I also forgot to mention to you that my large box on board the Crusader, ought to be corded. The Stewards promised to attend to this, perhaps however they have neglected it, and if the boxes have not already been sent off the Beaver (or Wise) will see that mine is corded, and that both are forwarded - mine to Rockford and Marys to Oberlin.

Again thanking you for all your trouble. I remain

Yours Truly
Mr. J. A. Wright

I was sorry she out
yesterday when Miss Dodge called
I shall be at home till 4⁰⁰
today, and very happy to see
her if she could come up.
My kind love to her
I also enclose my letter home

Lump Skapes must give the size
& kind & order enough to make
a package more S. W.

Sent no Kerocin in Nov 63
& find no change in his ac-
count in Nov 63.

Wm S. M.

mer

Bro. May, will have the privilege to order from
America the following, Books and oblige
L. J. Burdett

Children their Diseases & Management Foulie
Water - Care for Women in Pregnancy
The Parents' Guide & Child Birth Handbook
By Mrs. Burdett
Memory and Intellectual Improvement
Thought on Domestic Life

This order I overlooked, in making
up mine for Books - If this
reaches Bro. Harned, ~~it is time~~
to send them with my bill.

He will please to do so -

If not forward them the
first opportunity - Purchase
of Fowler & Wells - They will
send them at wholesale price
to me

Bro. Harned will please send
me - Costil on Poisons
& Hooper's Med. Dictionary

Yours truly P. McWay

Will Dr. Brewster put this
into some other person's
hands - for opportunity

A year ago, last Sep. I made request to the Ex-Com. for leave of absence for a twelve month, with my family. I desired also should my request be granted, that my salary be continued, and I should meet all my expenses home and back, and while there. - With respect to this request I have received no reply.

I did not set a time because I did not, as Bro. Hall, made a similar request, and I did not know as we could both have at the same time, and his necessities to rest while, might be greater than mine.

He received a permit to return. While ^{my request} ~~the~~ so far as I know, was given the "go by," at all events I have had not a single line about it. This I feel, though I have not thought best to make words about it.

In this spring or summer I have felt that duty to myself as well as family, would require a change, and I desire ^{to change} the acting of the Ex-Com on the matter.

Last Sep. Bro. Hall repeated my request, as yet I am not aware

Rev. L. Thompson.

1856

That very reply has been received,
I do not like to complain, yet I
do feel that my request has been
treated lightly. Perhaps an oversight
or something of the kind, or at least
no intended neglect, I am disposed
to think so.

You must know that I felt
myself considerably hurt when I returned
before. While I do not blame myself for going,
still I do not wish to place myself under
such circumstances again -

I remain
My dear Brother's truly
L. Thompson

minister, Rev. E. Thompson, bro. to George—
Bro. Burdwell & myself were at Strongsville last Sab.
Bro. B. preached in the new church & I in the old—
and in the eve. & Mond. eve. I lectured to both together
full & attentive audiences—left, we think, a good impression,
Sheffield & Elgin people will be heard from soon—
next Sab. I am to be at Asport & Oberlin
Sab. after near Cleveland & thence at once on
our way east stopping at Rochester & Syracuse
To be in Troy about the 20th inst where you can
direct me—care P. P. Stewart— Direct to Care of D. Pelton
Cleveland any thing that will reach me before or by the 12th inst
I haste to close for the office

Fraternally yours
Seth. S. Holcott

Rev. Jethro T. Holcott.
Uxbridge, Q.
Sept 1/53.

Report of Mission
Station.

To the ~~One~~ Malayan.
Jamaica Mission. M. 3.

Meeting of the brethren, - Examination of School teachers -

State of the schools. Want of teachers &c.

Since my last communication, which was written at Kingston, I have ^{now} been privileged with looking over the ground occupied by the American Missionaries, and taking ^{them} by the hand, with the exception of one family, each member. If the warm greeting, and words of kindness and sympathy are indications of heartfelt ^{feelings} ~~matches~~, then will our burdens be lightened, our bitter cup sweetened, and hours of loneliness and longings for home, cheered and consoled by the occasional visit of these servants of God.

On Tuesday we left Kingston in company of brethren Thompson of Eliot, and Richardson of Brainard Station, and one of the Deacons of the church at Oberlin, and a boy to drive a mule loaded with goods for the mission; making in all, 4 horses, one mule and a one horse waggon and 6 persons - quite a caravan. Our first station was at Oberlin, 16 miles from Kingston. Here we found most of the church assembled to welcome their new minister and his wife; which was done with a hearty good-will, and many thanks to God for his mercy in bringing us safely to this mountain home. - After our company had done ample justice to a ^{very good} well furnished table, we were assembled in the chapel, where we enjoyed a season of spiritual refreshing. Parting with our brethren, we made all possible speed, as appearances of rain were indicated, to Brainard, 10 miles from Oberlin. -

At this station a meeting of the mission families had been called, ~~for~~ ^{at Braintree} Wednesday and Thursday, for the double purpose of becoming acquainted with the new comers, and transacting business relative to the interests of the ~~Mission~~. On Wednesday morning there were added to our number, Bro. Wolcott and Lady from Hermitage, 20 miles distant, and Bro. Hall from Providence, about 18 miles distant, which includes all the ministers, except Bro. Olds, who resides some 40 miles from Braintree, which made it impracticable to give him due notice of the meeting. I need, scarcely, say we were glad to hear our dear brethren say, "Now brother and sister May make yourselves perfectly at home; we welcome you to all our joys and sorrows, and will endeavour to share them with you?" —

On Thursday, two gentlemen, one white and one colored, presented themselves to be employed as school teachers. On examination, it appeared that the white man, the best qualified of the two, had, some 30 years ago, studied reading, writing, Spelling, Arithmetic and Grammar. But he was like some men I have seen in the States, who have forgotten more than their neighbours, or themselves ever knew. He was a good reader and writer, but could not answer the most simple question in the rudiments, not even enumerate one million. His examination reminded me of an anecdote related by ex Gov. Briggs, of Mass. in an address at the commencement of the N. Y. State Normal School at Albany. A certain lawyer, in Vermont, who was very affable, obliging, and withal quite a lady's man, was appointed to examine School-Teachers in this town, at a time

When the standard of qualification was not very high. An old spinster presented herself for a certificate to teach school, who was so utterly deficient in every necessary qualification, that our obliging lawyer was very much puzzled how to manage his case. He finally gave her a certificate, recommending her as 'qualified to teach a very small number of very small children'. Ah, said the lady, 'that is just what I want'. It is, perhaps, needless to say that both gentlemen were unanimously rejected.

The state of schools, so far as my observation extends, is lamentable. Nothing grieves me more than to see so many children neglected. Several schools, connected with our mission are now, ~~and have been~~ a long time, suspended, for lack of teachers. And several might be opened, in places utterly neglected, had we teachers at our command. At least 10 or 12 teachers could be employed under our supervision. The education of the children, is admitted by all, to be of paramount importance. Moral and religious instruction, without intellectual culture, however assiduously imparted, will fail of permanently benefiting the people. That this people are capable of as high aims as any other people on earth, I firmly believe. And were it not for oppressive, licentious, rum-selling white men, the second generation, under such an influence as Christians are bound to exert, would equal any other nation, in real greatness and goodness. I consider the importance so great, that, though contrary to the advice of the Missionaries

I have resolved to commence a school, at this mission, immediately; hoping a supply of teachers will soon be here. Arrangements have been made, here, to support the schools, almost exclusively, without taxing the society at home. Where are the pious young men and women, who are ardently praying that some door of usefulness may be open to them? Where are the churches to which these pious, devout Christians belong? Will not those churches raise \$100 for each ^{or two} and send them to Jamaica? The amount of good which might be accomplished, by their devoting only a few years to teaching, eternity alone can disclose. Come brethren, rouse up! There is a great work to be done. Do it with a willing and glad heart; and what you give to the poor will be repaid by our heavenly father.

When I preached at Fulton, Oswego Co. N.Y. we sent out, and sustained a young man as teacher in Canada. That church has more wealth now than it had then and might send out several teachers without exhausting their surplus profits and interest on money. I presume there are many equally able churches, if not individuals. May God stir them up to duty! Those who come, must calculate on a sacrifice of society, relations and indolence, and on devoting themselves to labour, and, perhaps, reproach. They will also find a desire ^{generally} to learn, and readiness to obey, and unbounded respect from children and parents. Should God stir up the churches, or individuals, to send out teachers, let them correspond with Rev. George Whipple, 48 Beekman Street, N.Y.

P.M. Way I would only add, every member of the mission coincides with the above view of the ~~worth~~ of teachers and condition of the schools.

Jamaica May 10. 1852 Yours truly P. M. Way.

stances. Brainerd Church had at last settled down upon the old Congregational plan & were to all appearances more quiet & harmonious than at any previous time during my sojourn among them.

I saw nearly all the Mission during that evening & the next day, secured their approval, had a farewell with the people & set off Mon. eve.

I am still of the opinion that the Mission should be transferred to the care of the English by all means.

Bro. Starbuck spoke to me as if the Ex. Com. were in favor of the move, & if they are I see no insuperable obstacle in the way.

Bro. Allen's view of the case seems just & in it I concur except that it seems to me that all the stations except Richmond should be put on the same footing; I am sure that the English would be more

ready to take charge if all were offered
than if a part were.

Were Brainerd & Eliot excepted I
do not think any English Soc.
would take the rest.

But I must close, & write
you farther some other time.

For the first time since my
return my wife yesterday rode
out in the carriage & seemed
benefitted by the exercise though
for the time somewhat fatigued.

I hope to hear from you
soon.

My wife unites with me
in love to yourself & family

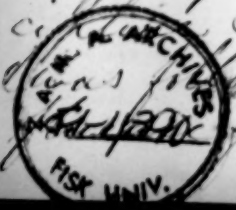

Yours truly

W. B. Brewster

- cipation have been little cared
for & badly attended of course.

At our gathering last week how-
ever not only were there more
present than usual but the good
Spirit of God was evidently with
us. there was a sober earnestness of
intelligence in those who spoke
very far removed from anything
like wild excitement & such all
seemed to be possessed with new
thoughts & feelings & purposes to
separate themselves more decid-
edly from evil & to follow after
righteousness. I was especially
gratified to hear from some of
those who at the beginning of
the Seper had caused us so much
grief & trouble, refer again to
their folly in words expressive
of deep regret, for I could not
help hoping that our act of dis-
ciple had been accompanied
with a blessed in-
fluence from on High. for well

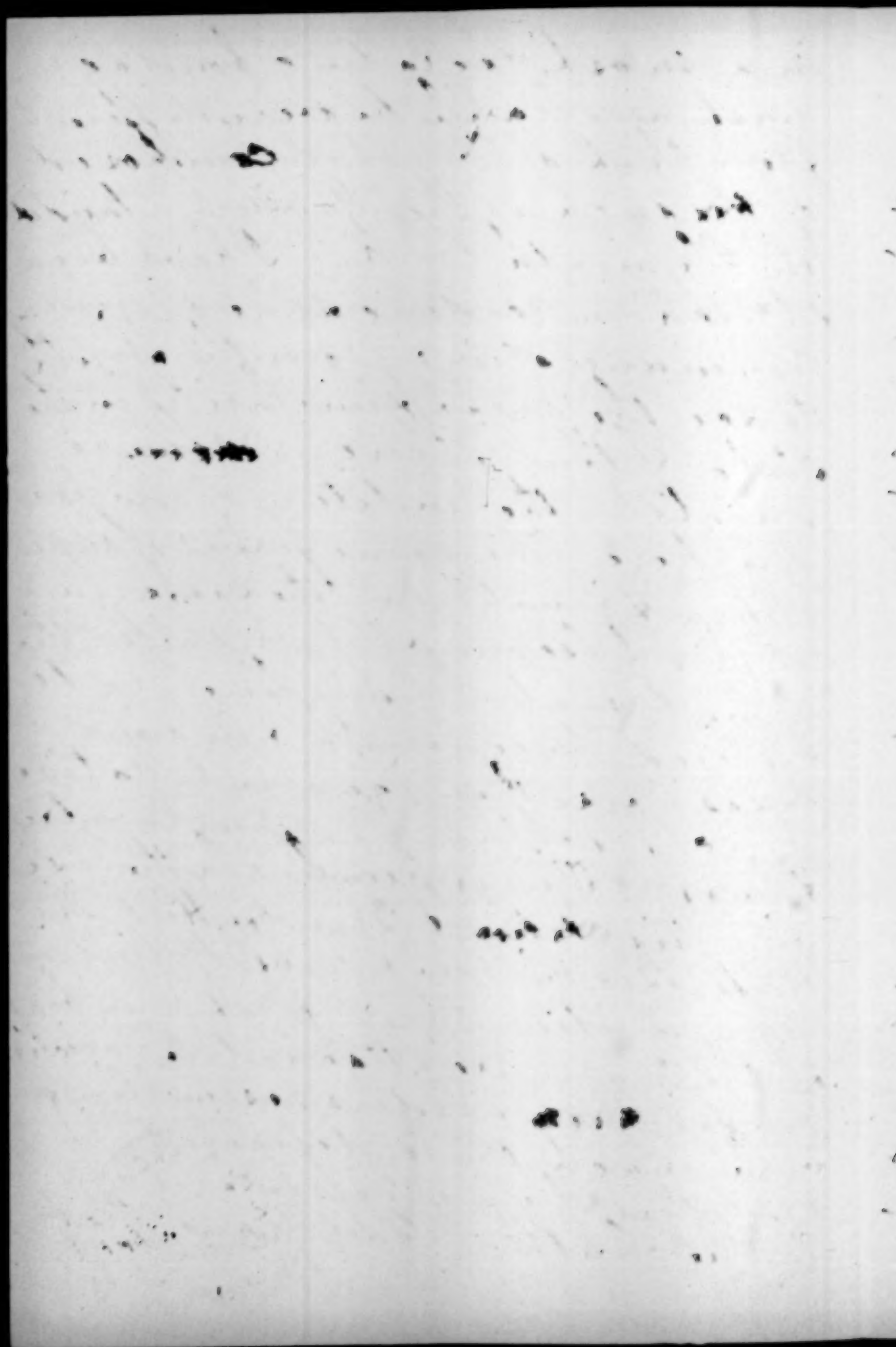

Do I know that such acts a-
part from God's sanction & are
any thing but promotive of true
righteousness. My earnest prayer
to God is that Christ may be
revealed in the hearts of His peo-
ple, that He may be more & more
precious in their eyes & so the
world & its allurement grow
less & less in their esteem.

These frequent excommunica-
tions & restrictions of members of
our Chs must seem strange to
you who are acquainted only with
Chs that are vastly more intelle-
gent & stable. But as you go on far-
ther in your work among the freedmen
of the South you may possibly
come to understand better the
unavoidableness of such an ab-
normal state of things. The
history of Churches formed of
the material brought by slave
ships from Guinea & their descen-
dants kept for many generations

Rev. C. B. Knapp.
Jamaica. 2/21
W. J.

(4)
in a most degrading bondage,
must necessarily be very different
from that of Churches composed
of the such as the Mayflower landed
on Plymouth Rock. I have been
struck in reading some of your
communications from the South
to see the great similarity in the
state of things there, in ~~many~~ ^{in some} re-
spects, to the conditions of our peo-
ple here. The same forms of super-
stition & fanaticism. the same ignor-
ance & false views of worship. the
same laxness of discipline & all
fostered by ignorant & in some
cases worse than ignorant, native
preachers obtain in your Country
& ours. This is peculiarly the case
with this ~~State~~ & Brandon Hill Dis-
tricts. Bro. Wilson & myself live in
communities where great numbers
of the people are attached to Societies
under ~~such~~ leaders, resembling
very much those described in
the letters of your Missions in
the South. God

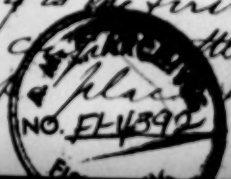

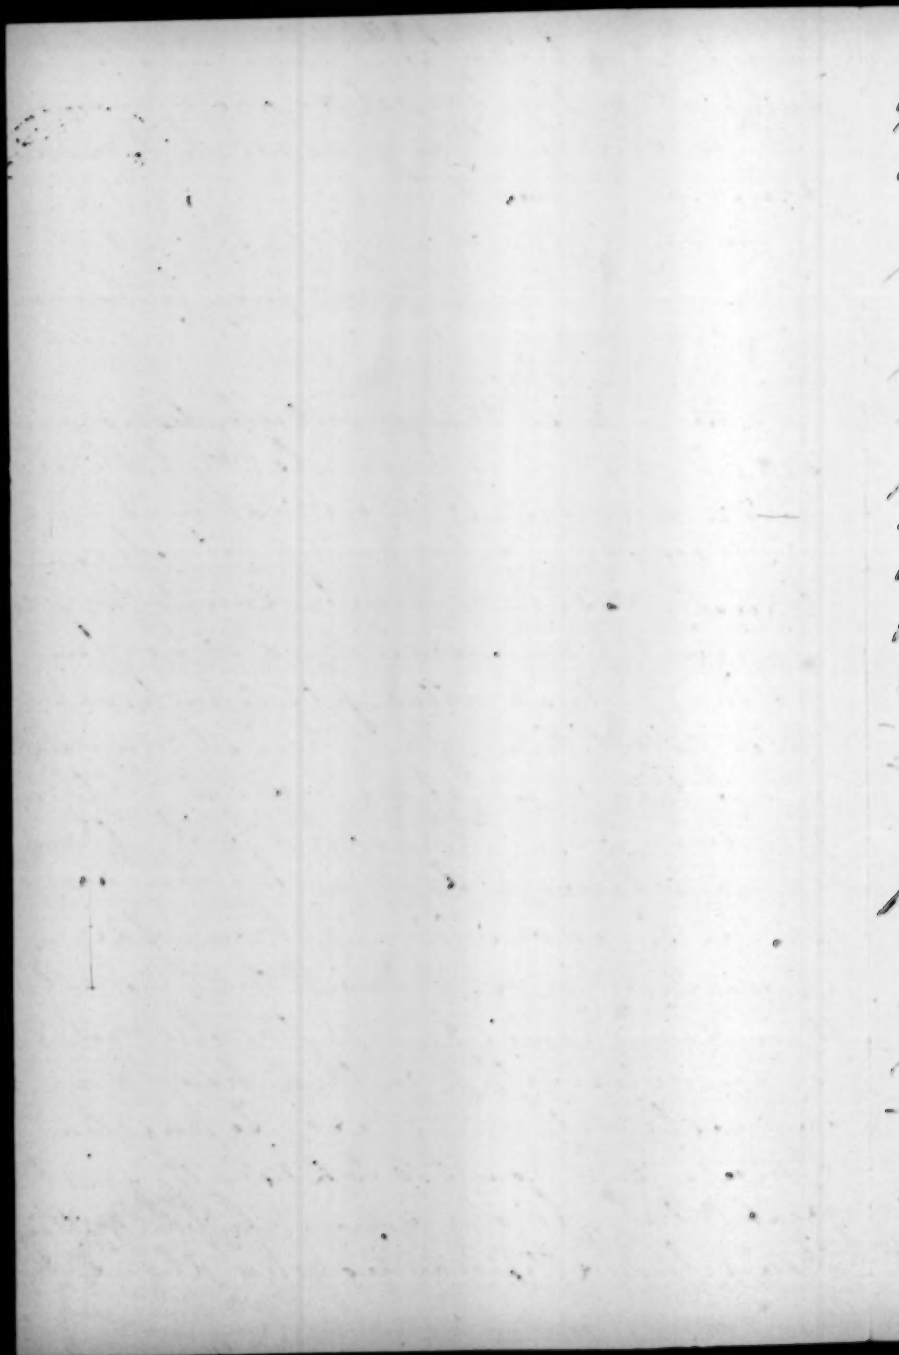

those laboring there may be
successful in drawing the people
from under these degrading in-
fluences. We have to lament how-
ever that after so long time so
many still stubbornly adhere to
these old connections. Not that there
is nothing good among them. Some
among their preachers seem to be sin-
cere & to desire to do good & one here
& there among their Chs bear a fair
character but on the whole these
Societies are not at all fitted to
the necessities of the people to en-
lighten & elevate them & on the
young especially they have any
thing but a good influence. So
much is this felt by some of the
best of their members that they
encourage their children to come
to our Sab School &c. & just at this
time some five or six young people
from their families who have been
thus instructed by us, have present-
ed themselves to the Church for
admission to fellowship. This

that the contributions ^(of) of our Chs to the support of the Gospel are very small. Now while I do not wish to make excuse for their delinquency as I fear in many cases it is culpable yet to think it is due to you & just to the people here to state some facts concerning their circumstances.

It is true their contributions are small but it is true also that their means are small their cash incomes very small. I have to witness continually cases of hearty young people married & unmarried of struggling yet ineffectual attempts to improve their condition. The general complaint is that they can get no market for their produce or as they express it "there is no selling". Add to this they are at the disadvantage of being far from the market town. Having to carry all their Hams coffee &c. over twenty miles to Kingston either on their heads or on beasts with hampers. To purchase a mule say from £10 to £14 is the first great struggle of a young couple settling themselves after having got a place &c.

fact with others (5) I could mention
will show you that this Church
is not powerless as regards its
influence on the people among
whom we live.

In other respects it would
seem there is not much in common
in the religious condition of our
people & yours. The ~~lately~~ freedmen
of the South are far in advance
of the Jamaicans. Ours in their zeal for
knowledge, in their consequent
rapid improvement & in their lib-
erality in supporting the Institu-
tions of the gospel &c.

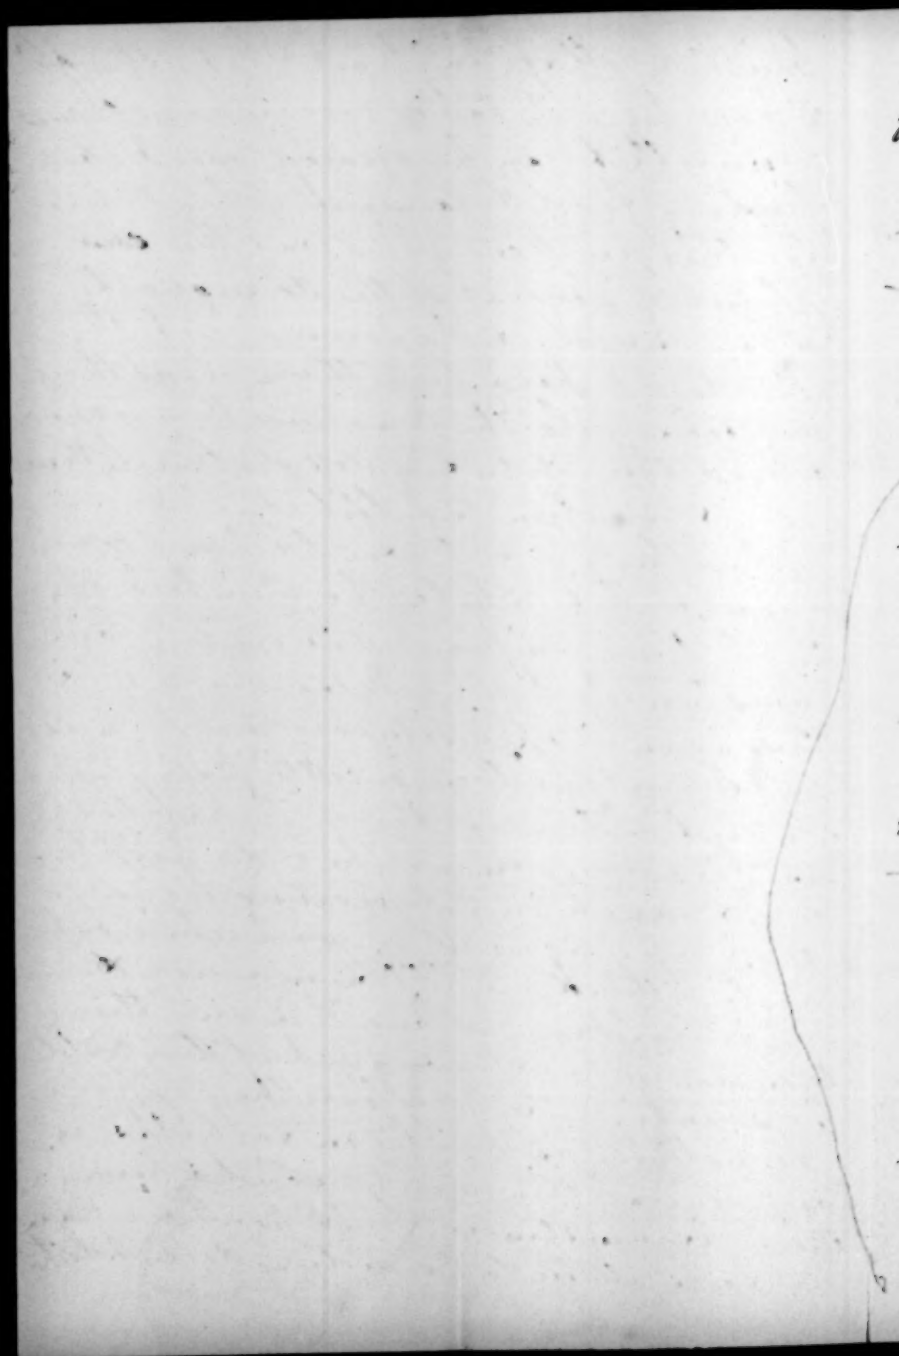

~~It is true~~ there has been a
great falling off in these things in
this Island. For I suppose you
~~are aware that~~ the people of these
W. Indies were ~~once~~ for a few years
immediately after Emancipation dis-
tinguished for zeal in Religion &
Education, & for giving liberally also
to maintain these good things. But
it is not so now it is a painful fact

John Thompson
Jamaica
West Indies

build a cottage ⁽⁶⁾ on it. - & What a struggle!
& how long it takes! every hard earned
penny that can be spared over & above
finding food & raiment is laid by
for this purpose. This was the com-
plaint of several of the delinquents,
whom myself & the Deacons met the
other day to fear from them about their
neglect. While ^{at} the same time they acknow-
ledged their duty & expressed strongly their
desire & intention to fulfil it.

Another fact I would have you
know is that while the members of
the Ch. thus complain of their low cir-
cumstances, I do not see much of ex-
travagant expenditure of money on un-
less & hurtful things. Little for instance
is spent on tobacco, the only habitual
smokers being among the older people,
& not much on intoxicating liquors.
these may be used on occasions but
rarely I think are in ^{large} common use.
Their wardrobe - & here if in any thing
they would be extravagant if they could -
is scanty. & their dress as they appear
for instance in public on sabbaths is
as a general thing just decent & becoming
their circumstances. Some however & can
scarcely attain to provide decent clothing

for themselves & families, & are kept
from the house of God in consequence.

Their houses too indicate any thing
but wealth. They are in most cases
thatched cottages tolerably comfort-
able according to their ideas. & the
furniture, consisting of a table or two
three or four chairs, bedstead &c.
is rude & simple in the extreme.

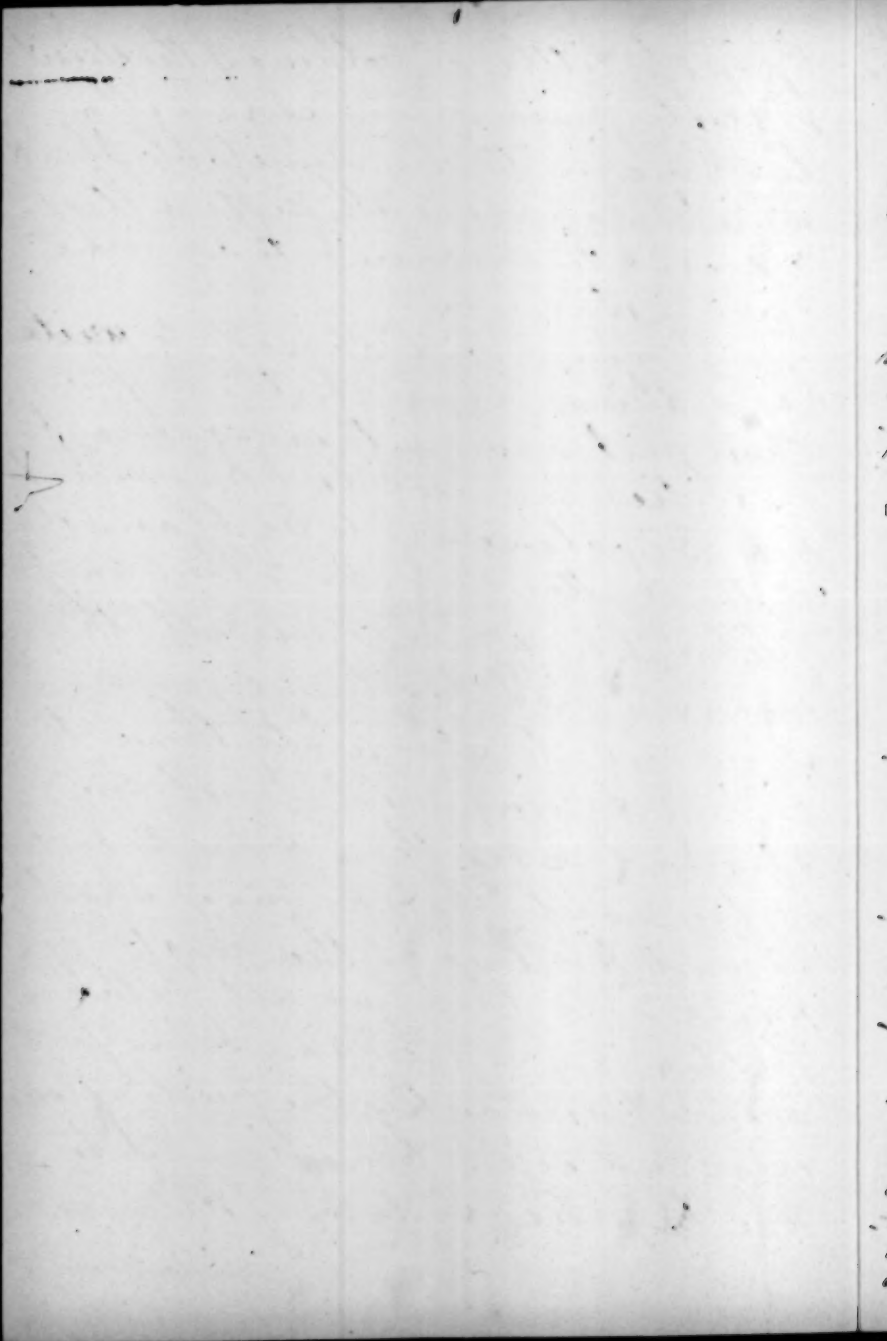

In speaking thus of the straitened
circumstances of our people I can-
not in truthfulness attribute it to
causes altogether independent of
themselves. For while they are not
given to vicious habits which tend
to impoverish those who indulge in
them, yet they lack qualities of heart
& mind, which are essential to suc-
cess in undertakings of any kind.

They are not indolent yet they
are not industrious after the manner
of our countrymen - making the most
of precious time. They are not ex-
travagant, but neither are they wise-
ly economical. They lack forethought
reflection, & practical wisdom in the
management of their affairs. They

perhaps little or nothing of the spirit
of enterprise. I am especially
hacking in that indomitable pluck
which grapples with difficulties
& scorns to succumb to adverse
circumstances.

I am not disposed to write
hard things against them for
their not having these excellent
qualities for well do I know that
not they alone are to be blamed
in the matter. As to their want
of liberality while I use all the
means which the law & gospel
allow me to stimulate them to
giving & doing good I feel con-
strained more than ever to wait
on the Lord that he may shed
abroad His love in the hearts of
His people that we all both
Pastors & people may bring forth
more abundantly the fruits of love
& large hearted beneficence to
the praise & glory of His name.

You see dear Brother how large a letter
I have written with my own hand. Which
if not a proof of my love to those concerned in
my writing. It give as a proof of my great
desire to make you acquainted with the
state of the Church & people under my care. For
I have written in much weakness doing little
now & again during several days. It is a
long time - more than three years - since I have
had the pleasure of hearing from you. But I sup-
pose you are over-much engaged with the cares
& duties connected with your vast field of labor
in the South. And then during that long time
I have been for the most part in such a low
condition that I was unable to remind you
that although laid aside, I was yet alive.

From July 1867 to the fall of 1868 I was
ill indeed. a good part of the time confin-
ed to bed with scarcely a hope that I
could again recover. By the good hand
of God upon me however I began to rally
in the middle of the year '68 & to improve grad-
ually till during the fall & in till April '69. I
was able to go about a little on horse back &
to preach occasionally &c. Then I was again tak-
en ill & brought down ^{indefinitely} to my former state as before.
I remained so for some months until by trying to
rally a little I was conveyed to the plains near
Kingston & stayed there three months. I returned here
in March of this year benefited by the change such
which I have been gaining strength very gradually un-
til lately I am now able to go in & out among the people
at their meetings & preach occasionally. In the latter
duty however the brethren ~~can~~ help me. Although

I have had painfully humiliating views
of myself during my afflictions & much despond-
ency yet my heart is fixed still to trust in
my God looking unto Jesus giving myself
to serve Him faithfully the few remaining
days of my sojourn here in this world.
I shall be glad if you are able to
write me soon.

Affec^tly Yours Mother

W. B. Remond

Mr Thompson says she thanks you for your words of consolation and encouragement. She does not feel particularly anxious about the future. The Lord will order all things for the best. She has suffered so much with those terrible paroxysms of pain, that death, in itself, would have nothing to dread. She has all along had a disinclination to leave Jamaica for any medical ^{ment} treatment. She has more than once expressed herself just as willing to die here, as any where else; and her only wish to live is, that she may do ~~some~~ ^{some} more effectively in the Mission work.

The medicine Dr. Sibbald prescribes for her has certainly done her good. — Since taking it, ^{something} has relieved her of those terrible pains — We sincerely hope she may yet be strong & healthy again —

No bill turns up of the sack,
glass & nails but we know not the
cost of them. ^{RISK} Bills of purchase for
books & Saddle are received. I have this
day drawn on you to the order of B. J.

I line for \$70. on acct of Buchanan building
& notified you of the same elsewhere -

Do let me hear from you at the earliest
possible date - In mean time I shall
be writing you farther Yours &c

S. J. Elliott

did not see Whipple send bill? No ^{not till} ^{at hand}

over

April 15 - Evening

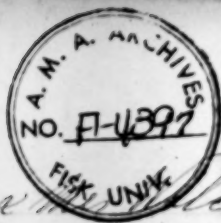

Recd per Brig Lark this day
6 Kegs nails 1 box glass 1 bale Bath-
1 box Books - 1 Do. Saddle & books
1 " Windows, 1 day 12 lights 11X14 glass

* The windows for Still House do not
appear to have been sent - What shall we
do? Can they be had? There were ordered
16 or 18 windows of 24 lights each - 11X14 glass

To make them there is out of the question in
any reasonable time, we must wait till
we hear again while our school fixtures
stand still, much to our regret.

I want, & must have 18 windows of 24
lights each, 11X14 glass or 36 pieces 12 lights each
4 lights width with 4 3 lengthwise making
the window 6 lights long & 4 wide

* Sent April 10 - 12

Myself are to take the
child and look after its ed-
ucation according to will
They were several other little
summers of I ~~was~~ here and there
I would not said any-
thing to you about this if
the thing had not cast such
a reproach upon us as mission-
aries for the people look upon
us as one - The people are losing
confidence in us as Americans
I say the out side people
and many of the church members
are greatly stumbled at it
and when the out side people
bring it up to them they say
they cannot open their mouths

for self defence, so they say
we must carry the burden
and reproach.

Mr Thompson work is done
here at Eliot as things are
now. If the church were called
upon to day for him to come
back there would be a division
in the church, and the chief
members would not vote for him
to come back. I am sorry to
say such things but they are
and I do not feel like coming
them up. If you want to
know the mind of the brethren
you can write to them
about his return.

I heard the two Deacons
say soon after Mr J. left

that there had been a good deal of talk from the pulpit but little gospel.

I wish that this people could have a good faithful minister that would go out and in before this people.

This people is deserving people, and they know what is good and right as well evil ~~and~~.

I simply have stated these things ^{not} to cast reproach upon or that to injure any one.

I thought you at home ought to know something about these things, and if you want to know more about it you can write to any member of the Mission. I have heard several say

that they wished you knew
how matters stood here in
~~this matter~~ - so I have made
myself a scape goat of the
Whipier to have the blam
and reproach of some. I feel
I have done ~~only~~ my duty
I have only given the facts
I do not wish to judge any
one. You are at liberty to
cast it aside or do what you
please with it.

I will add one word more Mr
Scott was heard to say to several
individuals that he did not
like the way that Minnie made
his will and between that time
and now he would have it made
different. He was speechless most
of the time during his illness.

Yours remain

L. B. Woodcock

Gones

Miss St. vad goch.
Private
Rec. Sept 11/63.

I have some things that
I should like to write to you
and as for one I think you
ought to know it and I am
not alone in this matter.

I have pondered the matter
over and prayed over it that
I might be guided aright
in the matter for I wish all well.

It is a matter that concerns the
Mission and it affects the Church
much. It is painful to think
that such things exist. But as
they do we must as a church and
Mission bare the reproach.

It is a matter that Mr Thompson
is deeply concerned in.
Just before he left with me.

W
O
N
a week or two he made a
Will. for Mr Peter Scott. one of the
Members of this church who was
formally a deacon but was
cut off. while Mr Thompson was
at home before for the of fornication
and becoming a father of an
unlawful child. But was
was restored back to the church
soon after Mr Thompson returned
but was never restored to his former
deacon ship. Mr Scott professed
repentance for his former sin and
promised to do better. But as far
it can be found out he never put
away the woman. Soon after Mr
Thompson left. Mr Scott. was taken
sick and died suddenly within
three weeks after Mr Thompson left

At the grave the will was produced
read by Mr Wolcott, it caused
great confusion. The will gives
most of the property to this unlaw-
ful child. The will reads thus. \$200-
to educate this child \$40-
to Richmond to build a
Students Hall called Scott Hall
The home stead when the wife
is dead is to home it, and
also part of the furniture when
she becomes of age - The child
is about, 4 years old and the
worst kind of a bastard child
as the people say. There were two
other grown up children a son
and daughter, that were born
in slavery time and the son
has served his father faithfully

and he does not get a penny
of his father's property, and he is
a poor man and had looked
to his father for aid.

That makes the people say so much
about it. it is because Mr Thompson
had preached so much about the
bastard children, and that he
was going to make a separation
in the congregation, Sabbath
and day school and put the
unlawful children and people
on one side of the house and
the lawful by themselves.

Now to do such things among
this people it is an impossibility
among this people just emerged
from slavery as it were.

The deacons say Minister to do
such a thing. He cannot. I never
knew such excitement since
I have been at Eliot.

Mr Walcott is one of the Executors
and a man from among the
people - this man will not have
any thing to do with it.

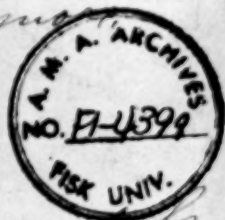

3. One copy of what five years ago, was called
"The Singing School" by J. B. Woodbury, pub-
lished at that time by F. J. Huntington 356
Broadway, & by Mason Brothers 108 & 110 Duane
street.

4. Barnes Notes on the Gospels & the Acts
~~three~~ ^{two} copies of each; & on Romans
1st & 2nd Corinthians, ^{4 Babs} four copies of each.

Please be sure & have a copy bill of
all the books come with them, as they
have been called for by the people & I
shall want to know at once what
price to put upon them.

It is a good indication of our Chas.
terfield young men that they have
become interested in Barnes Notes, as
them, & are calling for more.

Yours sincerely

Also for same

always speak of you in a most affectionate manner
The great mass of business must satisfy your hunger
for it - I want to play the egoist & speak of my mine
you inquire after my health - When I returned from the
mountains it was with fever upon me - I went to bed & breath
and was really very ill. The fever troubled my head much
but by rest & and surgical measures the state of good
Phillips and the blessing of God. I had a short time
severe attack - I am now quite recovered - Her six days
only was kept from me - and consequently was weaned at the
early age of eight months. She is quite well - creeping
over the dining hall - & reposing in the position of
six little teeth. She is very good natured. Even Mrs. Chapman
declared it was the best baby she ever saw - And when the
Halls folks pressed to know her opinion as to whether their baby
was as pretty as mine - she only said - it was as good as mine
What more conclusive evidence could you want
Lenny is nurse - And Williams the same good
creature as ever still keeps her place as housekeeper and
washer woman - she sends heaps of hordy - I was obliged
to discharge Caroline for living in an improper manner
but have a good look to fill her place -
I have not made the acquaintance of the new Governor
yet - but intend to call upon Mrs. Darling next Tuesday if
I can get Thomas to go with me - We are quite intimate
with the Hon. Richard P. Board and his sister Mrs. Harrison
Mr. Hale pronounces a host of benedictions upon you and
I speak of Miss Dean - He appreciates your character. I have
heard him talk about you - it pleases me well. -

Will be sorry to hear that he had been ill
and is "so so" at present.

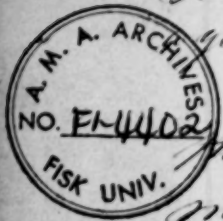

Our dear Sister Louisa was married to the Revd Edwin Portman Esq. an independent minister in London of considerable celebrity and an author of some works. She is very happy and almost worships her husband as a widower and has one little boy. Louisa is very fond of little Edwin. We are still in a disagreeable state of uncertainty respecting the return of our beloved parents. My heart is sick with the hope long deferred. Dr Phillips is married and last Wednesday returned with his wife to Spanish Town. We were invited to the welcome home. Our friend George was up for a day or two.

Mamma kindly sent us a real English plum pudding for Christmas and we had a quiet little party to eat it. I am delighted to hear such good accounts of your health. I hope dear you will see the hand of Providence directing your return. I feel sure that God will always direct your wants and direct your footsteps. Your visit to Alton must have been very pleasant. Always did you good to see old friends.

I hope you will write at once upon receiving this letter. It is written in great haste but I must write when I can and I do not spend too much time thinking of fine sentences lest I should become disgusted with letter writing. You wanted a homely letter and such I send you. I send very warm regards from to you and send love to your dear mother & Sister. And believe me ever most truly
Your loving child Maria.

I have drawn on your Accts. for \$100. to order of George Holt
 fifteen days after sight. Also \$100 to order of Dr. Wm. Buckett
 ten days after sight. This I enclose - As the mails close at 3 this
 P.M. and I am writing you, I must of course excuse me from
 writing formally to all your Whiting. Anything in this you
 have over to him to suit your convenience. I wish to
 return to the States by next Steamer when I hope to
 enlarge my correspondence and transmit without the
 infliction of a double Postage. - I enclose a bill which
 Miss Treat wishes you to be up of. W. J. Evangelist. amt for 2 years
 if it will be accepted after the delay - Also Rev. S. Boughton's order
 for stamps &c. - The prices named by Mr. C is simply to indicate
 the kind of lamp wanted, as sent in former order, and he will
 not be surprised if in the increase of size there is an increase
 in price - Mrs. S. Boughton wished me to say that her papers
 all came right with the exception of Harpers. Weekly
 Tribune - a paper commencing its year with Dec. - She desires
 it sent from Dec. - In the paper list sent you was the
 School Mate put down for me for this year? I want it continued
 Miss Treat desires added to her list. The Little American
 year - Orders addressed to Geo. W. Tracy, Hudson, New York -

I have read your letters - Thank you - I shall give
 them more attention when I have time - I shall bear in
 mind the suggestion of Mr. Whiting and of Mr. S. S. -

I am especially pleased with the specimen of roofing
 and shall have some inquiries to make at another time
 such as what quality of paper is used? Does it come in
 rolls or in sheets? - No coal is produced in these islands -
 all imported - Applications for roofing require me to
 order immediately another bill of same quantity as just sent
 5 barrels Cement & 20 rolls felt - Can the Store send me
 a few yards of wire web for screens or sieves suitable
 for separating the proper size gravel from both the coarser
 stones & from sand - There is nothing of the kind in this
 market and we have no means of manufacturing it conveniently

Did I say in a former letter that in my last invoice
of 64cs - 2 boxes - 1 doz. each - one box contained only 10 apes?
I think I did - Is it too late to have the deficit supplied either
in apes or on a/c of other goods?

I have paid Mr. Webb and enclosed
receipt thus far, on cash bills. I have not been compelled
to discount below 96 cts to the dollar. I get 4 1/2 here for
4 1/2 in New York. Such is the rate with one today - but
not with the trade generally - Exchange 30 in cent -

I must close at once for the mail
Love to all

Yours faithfully
Lith J. Kellogg

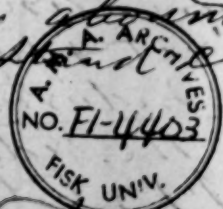

instruments to promote the general objects of the
Institution I sincerely regard their personal & private
comfort but the immediate & thorough prosperity
of Richmond School is first & nearest my heart
Money to expended, and all other matters pertaining
to the working of the Institution are under the
direction of a prudential committee composed of
all the male members of the Mission.

Any contributions cheerfully made to this object
will be thankfully received & faithfully appropriated.

We would here assure our friends of our sincere
& fervent gratitude to God & thank for past favors, and
we would devoutly pray that riches of His grace
may abound toward all that our work is done and
we stand complete in His presence in glory.

I remain Your Missionary
Seth J. Holcott

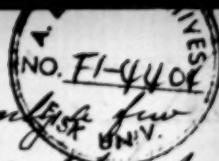

Business papers - I close hastily - no time
for review - W

legally as soon as the ^{2^d} balance due for the same
can be raised, and thus allow the Deed to be entered
upon the public records. - The great object
of our enterprise, therefore, may be regarded as
settled. The Institution is a living, and we hope
a permanent fact. May it prove a rising & last-
ing benefit, at least, to the Parish of Bute & to
the island of Jamaica. To this our friends will
heartily respond.

One proposition made in my last
year's report which never reached you I wish
here to repeat viz. that our friends holding
certificates of Stock in Richmond, anticipate
so far as they are able, making a direct & full contri-
bution of the same to "Richmond Industrial Insti-
tution". ^{What say our friends??} I ask now their debtor for the redemption
of their Stock - I shall be most happy to become
debtor to Lewis Tappan Esquire as their agent or trea-
surer for any sum to be paid by me in annual

Dec 24 Bourgeoisville

I have time to add only ^{just a few} words respecting our labors, and prospects of doing good. My duties have multiplied until I find my hands full. On the Sabbath I teach a bible class of young men, and preach twice. On Monday morning, at sun rise I attend an ^{at sun rise} ~~enquiry~~ meeting. On Tuesday morning I attend a meeting one & a half miles from here. On Tuesday evening there are ~~prayer~~ meetings in six different neighborhoods some one of which I usually attend. On Wednesday evening I attend a meeting two miles from here. And on Saturday evening is the usual Church meeting. The mental capacity of the people is such that I often feel that they are benefitted more by these little meetings at which we find from six to thirty persons present, than by the regular ministrations of the Sabbath. A few weeks ago I commenced having enquiry meetings, and the number that attend has gradually,

increased, until this week twenty six were present. Most that attend. I fear do so as sect of a matter of form, or are aiming to get into the church. At some that have attended have seemed to have a deep concern for themselves. So in the little meetings which we attend among the people the truth seems to take effect, and a good degree of interest is manifested. We see some indications of the Holy Spirit among the people. And it does seem as though it were hovering over us just ready to descend. Yet I fear the Church are not prepared to receive it. I think that it will be grieved away. Only a very few of the members of the Church appear to understand the part Christians have to do in gathering souls into the Kingdom of God. We certainly cannot expect from the Church what we might in a more intelligent community. "The harvest truly is plenteous, but the laborers are few" and I ^{often} made to feel that the masses will go down to death. We are stimulated to labor & to do what we can. And we find promises in the word of God that cause us to hope that our labors will be blessed in saving some souls. Yours &c H. B. Heath
